STATEMENT OF THE BOARD OF MANAGEMENT

RESPONSIBILITY OF THE BOARD OF MANAGEMENT OF THE COMPANY IN RESPECT OF THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

The Board of Management of FPT Corporation ("the Company") is responsible for preparing and presenting the interim consolidated financial statements of the Company and its subsidiaries (together, "the Group") which give a true and fair view of the consolidated financial position of the Group as at 30 June 2026, and of its consolidated financial performance and its consolidated cash flows for the six-month period then ended. In preparing these interim consolidated financial statements, the Board of Management is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent; and
- prepare the interim consolidated financial statements on a going concern basis unless it is inappropriate to presume that the Group will continue in business.

The Board of Management is responsible for ensuring that proper accounting records are kept which disclose, with reasonable accuracy at any time, the consolidated financial position of the Group and enable the interim consolidated financial statements to be prepared which comply with the basis of accounting set out in Note 2 to the interim consolidated financial statements. The Board of Management is also responsible for safeguarding the assets of the Group and hence for taking reasonable steps for the prevention and detection of fraud or error.

The Legal Representative of the Company authorised the Deputy General Director to approve and sign the interim consolidated financial statements of the Group for the six-month period ended 30 June 2026 pursuant to the Authorisation Letter No. 116/QĐ-FPT dated 14 August 2024.

APPROVAL OF THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

I hereby, approve the accompanying interim consolidated financial statements as set out on pages 4 to 62, which give a true and fair view of the consolidated financial position of the Group as at 30 June 2026, and of its consolidated financial performance and its consolidated cash flows for the six-month period then ended in accordance with Vietnamese Accounting Standards, the Vietnamese Corporate Accounting System and applicable regulations on the preparation and presentation of interim consolidated financial statements.

On behalf of the Board of Management

REPORT ON THE REVIEW OF INTERIM FINANCIAL INFORMATION TO THE SHAREHOLDERS OF FPT CORPORATION

We have reviewed the accompanying interim consolidated financial statements of FPT Corporation ("the Company") and its subsidiaries (together, "the Group") which were approved by the Deputy General Director of the Company (pursuant to the authorisation of the Legal Representative of the Company) on 17 August 2026. The interim consolidated financial statements comprise the interim consolidated statement of financial position as at 30 June 2026, the interim consolidated income statement, the interim consolidated cash flow statement for the six-month period then ended, and explanatory notes to the interim consolidated financial statements including significant accounting policies, as set out on pages 4 to 62.

The Board of Management's Responsibility

The Board of Management of the Company is responsible for the preparation and the true and fair presentation of these interim consolidated financial statements of the Group in accordance with Vietnamese Accounting Standards, the Vietnamese Corporate Accounting System and applicable regulations on the preparation and presentation of interim consolidated financial statements, and for such internal control which the Board of Management determines is necessary to enable the preparation and presentation of interim consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the interim consolidated financial statements based on our review. We conducted our review in accordance with Vietnamese Standards on Review Engagements 2410 – Review of Interim Financial Information Performed by the Independent Auditor of the Entity.

A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Vietnamese Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Auditor's Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Group as at 30 June 2026, the consolidated financial performance and the consolidated cash flows of the Group for the six-month period then ended in accordance with Vietnamese Accounting Standards, the Vietnamese Corporate Accounting System and applicable regulations on the preparation and presentation of interim consolidated financial statements.

Other Matter

The report on the review of interim consolidated financial information is prepared in Vietnamese and English. Should there be any conflict between the Vietnamese and English versions, the Vietnamese version shall take precedence.

1. GENERAL INFORMATION

Structure of ownership

FPT Corporation (the "Company") was initially incorporated as a state-owned company in Vietnam and was subsequently equitised under Decision No. 178/QD-TTg, officially becoming a joint stock company. FPT Corporation operates under Enterprise Registration Certificate No. 0101248141, initially issued by the Department of Planning and Investment of Hanoi City on 13 May 2002, and subsequent amended Enterprise Registration Certificates. Pursuant to the amended Enterprise Registration Certificate dated 19 December 2008, the Company changed its name from FPT Corporation for Financing and Promoting Technology to FPT Corporation. Pursuant to the latest amendment (61st) to the Enterprise Registration Certificate dated 16 July 2026, the Company increased its charter capital to VND 17,143,264,220,000.

Since December 2006, the shares of FPT Corporation have been listed on the Ho Chi Minh City Stock Exchange under the ticker symbol "FPT".

As at 30 June 2026, the Group had 44,388 employees (as at 31 December 2025: 54,110 employees).

The Group's headcount decreased compared with the end of 2025 as employees of FPT Telecom Joint Stock Company (FTEL) were no longer included following the cessation of full consolidation of FTEL from 1 January 2026.

As at 30 June 2026, the Group's headcount in the information technology sector was 36,726, an increase of 3% compared with 35,638 as at 31 December 2025.

Business lines and principal activities

The principal activities of the Group are the provision of information technology and telecommunication products and services. The main products and services provided include: (i) software development services, including software export, packaged software and solutions, software services and enterprise resource planning ("ERP") systems; (ii) information technology services, including digital transformation and information technology consulting, system management services, BPO services, data centre services, cloud computing services and services based on new technologies such as artificial intelligence and automation, etc; (iii) system integration; and (iv) education and training services at general education, college, university and postgraduate levels.

Normal operating cycle

The Group's normal operating cycle does not exceed 12 months, except for certain system integration projects whose implementation periods exceed 12 months.

The Group's structure

As at 30 June 2026, the Company directly owned seven subsidiaries and four associates. Details are presented on the following page.

In addition, information on other subsidiaries, joint ventures and associates indirectly owned by the Company is presented in Appendix 1 to the interim consolidated financial statements.

1. GENERAL INFORMATION (CONTINUED)

The Group's structure (continued)

Detailed information on the subsidiaries consolidated in the interim consolidated financial statements as at 30 June 2026 is presented in the relevant table.

Name of subsidiary	Place of incorporation and operation	Proportion of ownership interest (direct and indirect)	Proportion of voting power held	Principal activities
FPT IS Company Limited	No.10, Pham Van Bach Street, Cau Giay Ward, Hanoi	100.00%	100.00%	Providing application software solution, ERP service, IT service and integrated system service
FPT Software Company Limited	Floor 6-12, FPT Cau Giay Building, Duy Tan Street, Cau Giay Ward, Hanoi	100.00%	100.00%	Providing software services and products
FPT Education Company Limited	Hoa Lac High Tech Park, Km 29, Thang Long Boulevard, Hoa Lac Ward, Hanoi	100.00%	100.00%	Providing training and technology services
FPT Investment Company Limited	No.10, Pham Van Bach Street, Cau Giay Ward, Hanoi	100.00%	100.00%	Providing financial services activities (investment consulting services, excluding legal and financial consulting services)

FPT Digital Company Limited	No.10, Pham Van Bach Street, Cau Giay Ward, Hanoi	100.00%	100.00%	Providing digital transformation consulting services

1. GENERAL INFORMATION (CONTINUED)

The Group's structure (continued)

Detailed information on the directly owned associates accounted for using the equity method in the interim consolidated financial statements as at 30 June 2026 is presented in the relevant table.

Name of associate	Place of incorporation and operation	Proportion of ownership interest (direct and indirect)	Proportion of voting power held	Principal activities
FPT Digital Retail Joint Stock Company	261 - 263 Khanh Hoi, Vinh Hoi Ward , Ho Chi Minh City	46.54%	46.54%	Retails of computers, peripheral devices, software and telecommunication equipment; telecom service agent
Synnex FPT Joint Stock Company	FPT Cau Giay Building, Duy Tan Street, Cau Giay Ward, Hanoi	48.00%	48.00%	Producing technology products and distributing IT devices and mobile phone; and manufacturing computers
FPT Telecom Joint Stock Company (*)	Floor 2, FPT Cau Giay Building, Duy Tan Street, Cau Giay Ward, Hanoi	45.66%	45.66%	Providing ADSL services, fixed line internet services, online advertising and other online services
FPT Online Service Joint Stock Company (*)	Lot 29B-31B-33B, Tan Thuan Street, Tan Thuan Ward, Ho Chi Minh city	23.86%	23.86%	Providing online services

(*) Pursuant to Official Letter No. 1906 dated 18 March 2026 issued by the Department of Planning and Finance under the Ministry of Public Security, the Group retained control over FPT Telecom Joint Stock Company ("FTEL") through 31 December 2025 and continued to consolidate FTEL's financial statements into the Group's consolidated financial statements through 31 December 2025.

From 1 January 2026, pursuant to the above Official Letter, the Group changed the accounting method for its investment in FTEL from full consolidation, as applied to a subsidiary, to the equity method, as applied to investments in joint ventures and associates.

1. GENERAL INFORMATION (CONTINUED)

The Group's structure (continued)

For comparative purposes of the interim consolidated income statement, the Group disclosed the figures for the six-month period ended 30 June 2025 using accounting policies consistent with those applied in 2026, as follows:

ITEMS	Code	From 01/01/2026 to 30/06/2026	From 01/01/2025 to 30/06/2025		Variance	
			Amounts after consolidation of FTEL as a subsidiary (previously reviewed)	Amounts excluding the consolidation of FTEL as a subsidiary	Increase/decrease	
		VND	VND	VND	VND	%

Disclosure of information comparability in the interim consolidated financial statements:

Due to the first-time adoption of the new accounting system (Note 2), the Board of Management has restated the comparative figures to conform to the current period's presentation. The comparative figures presented in the "31/12/2025" column of the Interim consolidated statement of financial position and the related notes are derived from the audited consolidated balance sheet as at 31 December 2025 after the adjustments. The comparative figures presented in the "from 01/01/2025 to 30/06/2025" column of the interim consolidated income statement, the interim consolidated cash flows statement, and the related notes are derived from the reviewed Interim consolidated income statement and interim consolidated cash flows statement for the six-month period ended 30 June 2025 after the adjustments.

2. BASIS OF PREPARATION OF THE CONSOLIDATED FINANCIAL STATEMENTS AND FINANCIAL YEAR

Basis of preparation of the interim consolidated financial statements

The interim consolidated financial statements have been prepared in accordance with Vietnamese Accounting Standards, the Vietnamese Corporate Accounting System and applicable regulations on the preparation and presentation of interim consolidated financial statements.

The accompanying interim consolidated financial statements are not intended to present the financial position, the financial performance and the cash flows in accordance with accounting principles and practices generally accepted in countries and jurisdictions other than Vietnam. The accompanying interim consolidated financial statements are not intended to present the financial position, the financial performance and the cash flows in accordance with accounting principles and practices generally accepted in countries and jurisdictions other than Vietnam. The accounting principles and practices used in Vietnam may differ from those generally accepted in countries and jurisdictions other than Vietnam.

Financial year

The Group's fiscal year begins on 1 January and ends on 31 December. The accompanying interim consolidated financial statements have been prepared for the six-month period from 1 January 2026 to 30 June 2026.

Adoption of new guidance on the corporate accounting system

On 27 October 2025, the Ministry of Finance issued Circular No. 99/2025/TT-BTC ("Circular 99"), replacing Circular No. 200/2014/TT-BTC in providing guidance on the corporate accounting system.

On 20 April 2026, the Ministry of Finance issued Circular No. 43/2026/TT-BTC ("Circular 43"), amending and supplementing certain provisions of Circular No. 202/2014/TT-BTC, including changes to the prescribed forms of consolidated financial statements.

These two Circulars apply to the preparation and presentation of consolidated financial statements for financial years beginning on or after 1 January 2026. The Company has applied the financial statement forms prescribed under Circular 99 and Circular 43 from 1 January 2026.

Due to the first-time adoption of the new accounting system, the Board of Management has represented the comparative figures to conform to the current period's presentation (Note 39).

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following are the significant accounting policies adopted by the Group in the preparation of the interim consolidated financial statements:

Currency used in the preparation and presentation of the interim consolidated financial statements

The Group's accounting and presentation currency for the interim consolidated financial statements is Vietnamese Dong ("VND" or "Dong").

On consolidation, where the financial statements of a subsidiary are prepared in a currency other than the Group's reporting currency, the parent company translates the subsidiary's financial statements into the Group's reporting currency using the following principles:

- Assets and liabilities of the subsidiary, and goodwill arising from the acquisition of an overseas subsidiary, are translated at the actual exchange rate at the end of the accounting period,;
- Undistributed post-tax profits arising after the acquisition date are translated by translating the revenue and expense items in the income statement;
- Dividends paid are translated at the actual transaction exchange rate on the dividend payment date;

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Currency used in the preparation and presentation of the interim consolidated financial statements (continued)

- Items in the income statement and cash flow statement are translated at the actual transaction exchange rates prevailing at the transaction dates. Where the average exchange rate for the reporting period approximates the actual transaction exchange rates prevailing at the transaction dates (with the difference not exceeding the spot exchange-rate fluctuation band prescribed by the State Bank of Vietnam) the average exchange rate may be used; and
- Foreign exchange differences arising from the translation of subsidiaries' financial statements are accumulated in equity in the interim consolidated statement of financial position. The portion attributable to the parent company is presented under "Foreign exchange differences", while the portion attributable to non-controlling shareholders is presented under "Non-controlling interests".

Exchange rates used in accounting

Transactions arising in foreign currencies are translated at the actual exchange rates prevailing at the transaction dates.

Monetary assets and liabilities denominated in foreign currencies at the interim consolidated statement of financial position date are translated at the transfer exchange rates quoted at that date by the commercial banks with which the Group regularly transacts.

Foreign currency borrowings for which the Group hedges foreign exchange risk using currency swaps and forward purchases of equivalent foreign currencies are translated at the exchange rates specified in the foreign currency purchase and sale contracts between the relevant entities and the commercial banks.

All foreign exchange differences arising from translation are recognised as income or expenses in the interim consolidated income statement.

Accounting estimates

The preparation of the interim consolidated financial statements in conformity with Vietnamese Accounting Standards, the Vietnamese Corporate Accounting System and applicable regulations on the preparation and presentation of interim consolidated financial statements requires the Board of Management to make estimates and assumptions that affect the reported amounts of liabilities and assets, the disclosure of contingent liabilities and assets at the date of the interim consolidated statement of financial position, and the reported amounts of revenue and expenses during the reporting period. Although accounting estimates are made based on the Board of Management's best knowledge, actual results may differ from those estimates and assumptions.

Estimates and assumptions that have a material impact on the interim consolidated financial statements include:

- Provision for doubtful debts (Note 11);
- Provision for declient in value of inventories (Note 12);
- Provision for financial investments (Note 6);
- Estimated useful lives of fixed assets (Note 13 and 14);
- Provisions for liabilities;
- Estimated percentage of completion used for revenue recognition; and
- Estimates of current and deferred corporate income tax (Note 32).

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of consolidation

The interim consolidated financial statements incorporate the financial statements of the parent company and the financial statements of subsidiaries controlled by the Group. Control is achieved where the Group has the power to govern the financial and operating policies of an investee in order to obtain benefits from its activities.

The results of subsidiaries acquired or disposed of during the period are included in the interim consolidated income statement from the acquisition date or up to the disposal date, as appropriate.

The assets, liabilities and contingent liabilities of a subsidiary are measured at fair value at the subsidiary's acquisition date. Any excess of the acquisition cost over the Group's share of the aggregate fair value of the subsidiary's net assets is recognised as goodwill. Any shortfall of the acquisition cost below the Group's share of the aggregate fair value of the subsidiary's net assets is recognised in the consolidated income statement for the financial year in which the subsidiary is acquired.

Inter-company transactions, balances and unrealised gains and losses arising between companies within the Group are eliminated on consolidation.

The accounting policies of subsidiaries are changed where necessary to ensure consistency with the policies adopted by the Group.

Transactions with and interests of non-controlling shareholders

The Group applies the same accounting policy to transactions with non-controlling shareholders as it applies to transactions with parties outside the Group.

Non-controlling interests comprise the value of non-controlling interests at the date of the original business combination and the non-controlling shareholders' share of changes in total equity since the business combination date. Losses arising in a subsidiary are allocated to non-controlling shareholders in proportion to their ownership interests, even where such losses exceed the non-controlling shareholders' interests in the subsidiary's net assets.

At the date of the original business combination, non-controlling interests are measured based on the non-controlling shareholders' proportionate share of the aggregate fair value of the recognised assets, liabilities and contingent liabilities.

Transactions that change the Group's ownership interest in a subsidiary without resulting in a loss of control are accounted for as equity transactions. The difference between the change in the Group's share of the subsidiary's net assets and the consideration paid or received from the disposal of an interest in the subsidiary is recognised in undistributed post-tax profits within equity. For transactions that change the Group's ownership interest in a subsidiary and result in a loss of control, the difference between the change in the Group's share of the subsidiary's net assets and the consideration paid or received from the disposal is recognised in the interim consolidated income statement. Any remaining interest in the former subsidiary is accounted for as an ordinary financial investment or using the equity method from the date on which the Group ceases to control the subsidiary.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Joint ventures and associates

Joint ventures are contractual arrangements whereby two or more parties undertake an economic activity that is subject to joint control by the venturers. Associates are entities over which the Group has significant influence but not control, generally accompanying an ownership interest of between 20% and 50% of the voting rights. Investments in joint ventures and associates are accounted for using the equity method and are initially recognised at cost.

Investments in associates are presented in the consolidated financial statement at cost and subsequently adjusted for changes in the Group's share of the associates' net assets after the acquisition date.

The Group's investments in associates include goodwill arising on acquisition, less accumulated impairment losses.

Profit from joint ventures and associates recognised in the interim consolidated income statement corresponds to the Group's proportionate share of the profit of those joint ventures and associates. When the Group's share of losses in a joint venture or associate equals or exceeds its interest in that entity, the Group does not recognise further losses unless it has incurred obligations or made payments on behalf of the joint venture or associate.

Where the equity of a joint venture or associate changes without the change being reflected in the income statement for the year, such as through equity transactions or foreign exchange differences not recognised in profit or loss, the Group uses the interim statement of financial position of the joint venture or associate to determine and recognise its share of the change in equity. This amount increases or decreases the carrying amount of the investment in the joint venture or associate and the corresponding equity items of the Group.

Unrealised gains and losses arising from transactions between the Group and its joint ventures or associates are eliminated to the extent of the Group's interest in those entities in accordance with prevailing accounting regulations.

Goodwill

Goodwill in the consolidated financial statements represents the excess of the cost of a business combination over the Group's share of the aggregate fair value of the identifiable net assets of the acquired subsidiary, joint venture or associate at the acquisition date.

Goodwill arising from the acquisition of a subsidiary is recognised as an asset and amortised to the interim consolidated income statement on a straight-line basis over its estimated useful life, but not exceeding ten years. Goodwill arising from the acquisition of an investment in a joint venture or associate is included in the carrying amount of the investment at the acquisition date and is not separately amortised.

On disposal of an interest in a subsidiary, joint venture or associate, the unamortised carrying amount of goodwill is reduced in proportion to the interest disposed of and recognised in undistributed post-tax profits where the Group retains control of the subsidiary. Where the Group loses control, the entire remaining carrying amount of goodwill is derecognised and included in the gain or loss recognised in the interim consolidated income statement.

The Group tests goodwill for impairment annually. Where there is evidence that the impairment loss for a period exceeds the annual goodwill amortisation charge, the Group immediately recognises the full impairment loss in that accounting period.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits at banks, cash in transit and other short-term investments with an original maturity of three months or less.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Receivables

Receivables are initially recognised at cost. Receivables represent the carrying amounts of trade receivables arising from sales of goods and rendering of services and other non-trade receivables unrelated to sales of goods or rendering of services.

Provision for doubtful debts is made for each receivable based on the overdue period for repayment of principal under the original repayment commitment, excluding any rescheduling agreed between the parties, or based on the estimated loss that may arise. The difference between the provision required at the end of the current accounting period and the provision made at the end of the previous accounting period is recognised as an increase or decrease in general and administration expenses for the accounting period. Receivables identified as uncollectible are written off.

Receivables are classified as short-term or long-term receivables on the interim consolidated statement of financial position based on the remaining maturity period as at the end of the reporting period.

Assets are classified as current assets if recovery is expected within 12 months or less from the end of the reporting period; all other items are classified as non-current assets.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the first-in, first-out method and includes all costs of purchase, costs of conversion and other directly attributable costs incurred in bringing the inventories to their present location and condition. For manufactured products, cost includes all direct expenditure and production overheads based on normal levels of operating activity. Net realisable value is the estimated selling price of inventories in the normal course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

The Group applies the perpetual inventory system.

Provision is made for obsolete, slow-moving and defective inventory items. The difference between the provision required at the end of the current accounting period and the provision made at the end of the previous accounting period is recognised as an increase or decrease in the cost of goods sold for the accounting period.

Financial investments

Investments held to maturity

Investments held to maturity are investments that the Group has the positive intention and ability to hold until maturity.

Investments held to maturity include bank term deposits with an original term of more than three months and other investments held to maturity. These investments are initially recognised at cost. Subsequently, financial income arising from the investments, such as interest on term deposits, lending interest and bond interest,... is added to the carrying amount of the relevant investment. At the same time, the Group reviews all investments to determine the provision to be recognised at the end of the accounting period.

Provision for diminution in value of investments held to maturity is made when there is reliable evidence that part or all of an investment may be uncollectible. The difference between the provision made at the end of the current accounting period and the provision made at the end of the previous accounting period is recognised as an increase or decrease in financial expenses for the accounting period. A reversal of the provision shall not cause the carrying amount to exceed its original carrying amount.

Investments held to maturity are classified as short-term or long-term investments held to maturity on the interim consolidated statement of financial position based on the remaining period from the end of reporting period to maturity date.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Financial investments (continued)

Investments in equity instruments of other entities

Investments in equity instruments of other entities are investments in the equity instruments of entities over which the Group has neither control nor joint control and does not have significant influence. These investments are stated at cost less any provision for diminution in value.

The difference between the provision made at the end of the current accounting period and the provision made at the end of the previous accounting period is recognised as an increase or decrease in financial expenses for the accounting period. A reversal of the provision shall not cause the carrying amount to exceed its original carrying amount.

Provision for diminution in value of long-term financial investments

Provision for diminution in value of long-term financial investments is made in accordance with Circular No. 48/2019/TT-BTC issued by the Ministry of Finance on 8 August 2019, providing guidance on the making and settlement of provisions for diminution in value of inventories, losses on investments, doubtful debts and warranties for products, goods, services and construction works at enterprises, and prevailing accounting regulations. In certain circumstances, based on the Board of Management's estimates and the principle of prudence, the Group makes a provision for diminution in value of long-term investments in excess of the amount required under prevailing regulations.

Software development and system integration contracts

The Group applies the following accounting policies to account for and monitor software development and system integration contracts.

Where the outcome of a software development or system integration contract can be reliably estimated and the Group is paid according to the progress of the work, the Group uses the percentage-of-completion method to determine the appropriate revenue and expenses to be recognised during the accounting period.

Where the outcome of a software development or system integration contract cannot be reliably estimated, contract revenue is recognised only to the extent of contract costs incurred that are likely to be recoverable. Contract costs are recognised only when incurred during the accounting period.

The aggregate costs incurred and profit or loss recognised for each contract are compared with the aggregate amount of invoices issued up to the end of the accounting period. Where costs incurred and recognised profits, less recognised losses, exceed the aggregate amount of invoices issued, the balance is presented as a receivable based on the contract's scheduled progress. Where the aggregate amount of invoices issued exceeds the costs incurred plus recognised profits, less recognised losses, the balance is presented as a payable based on the contract's scheduled progress.

Tangible fixed assets and depreciation

Fixed assets are assets held by the Company for use in its production and business activities that satisfy the recognition criteria for fixed assets. Fixed assets are stated at historical cost less accumulated depreciation. Historical cost includes expenditure directly attributable to bringing the fixed assets to the condition necessary for their intended use. Subsequent expenditure is added to the historical cost of a fixed asset only when it is probable that such expenditure will increase the future economic benefits derived from the use of that asset. Expenditure that does not satisfy this condition is recognised as an operating expense in the accounting period in which it is incurred.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Tangible fixed assets and depreciation (continued)

Fixed assets are depreciated using the straight-line method to write off their depreciable amounts over their estimated useful lives. The depreciable amount is the historical cost of a fixed asset recognised in the interim consolidated financial statements less its estimated residual value. The estimated useful lives of each asset class are as follows:

	(Years)
Buildings and structures	5 – 30
Machinery and equipment	3 – 25
Motor vehicles	4 – 7
Office equipment	3 – 10
Other assets	3 – 5

Intangible fixed assets and amortisation

Intangible fixed assets comprise land use rights, computer software, licences, operating rights, publishing rights and copyrights, customer relationships and brand names.

(i) Land use rights

Land use rights comprise land use rights granted by the State for which land use fees are collected, land use rights acquired through legitimate transfers, and prepaid land use rights under land lease contracts effective before the effective date of the 2003 Land Law, being 1 July 2004, for which land use right certificates have been issued.

Definite-term land use rights are stated at cost less accumulated amortisation. The cost of land use rights comprises the purchase price and directly attributable costs incurred in obtaining the land use rights. Land use rights are amortised on a straight-line basis over the term of the land use rights. Indefinite-term land use rights are stated at cost and are not amortised.

(ii) Computer software

The purchase price of new computer software that is separable from the related hardware is capitalised and accounted for as an intangible fixed asset. Computer software is amortised to operating expenses on a straight-line basis over a period of three to five years.

(iii) Publishing rights and copyrights

The purchase price of new publishing rights and copyrights is accounted for as intangible fixed assets. Publishing rights and copyrights are amortised to operating expenses on a straight-line basis over a period of three to five years.

(iv) Customer relationships and brand names

Customer relationships and brand names arising from the acquisition of subsidiaries are amortised on a straight-line basis over their estimated useful lives of between ten and twenty years.

Disposals

Gains or losses arising from disposals of fixed assets are determined by comparing the net disposal proceeds with the carrying amount of the fixed assets and are recognised as income or expenses in the interim consolidated income statement.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Construction in progress

Construction in progress represents the cost of assets under construction or installation for production, rental, administrative or other purposes and is stated at cost. Depreciation of these assets, on the same basis as other fixed assets, commences when the assets are ready for their intended use.

Leased assets

Leases under which the lessor transfers ownership at the end of the lease term and substantially transfers the risks and rewards incidental to ownership of the asset to the lessee are classified as finance leases. Finance leases are recognised as assets at the commencement of the lease at the lower of the fair value of the leased asset and the net present value of the minimum lease payments.

Finance lease payments are apportioned between finance expenses and the reduction of the principal liability so as to produce a constant periodic rate of interest on the remaining balance of the finance lease liability.

Finance expenses are recognised in the consolidated income statement over the lease term. Fixed assets acquired under finance leases are depreciated using the straight-line method over the shorter of their estimated useful lives and the lease term. However, where there is reasonable certainty that the lessee will obtain ownership by the end of the lease term, the assets are depreciated over their estimated useful lives.

Operating leases are leases under which a significant portion of the risks and rewards incidental to ownership of the fixed assets is retained by the lessor. Payments made under operating leases are recognised in the interimconsolidated income statement on a straight-line basis over the lease term.

Deferred expenses

Deferred expenses are expenditures that have been incurred but relate to the operating results of multiple accounting periods. They comprise short-term and long-term deferred expenses presented on the interim consolidated statement of financial position. Short-term deferred expenses are expenses with an allocation period of 12 months or less, or within one normal operating cycle, from the date on which the expenses are incurred. Long-term deferred expenses are expenses with an expected allocation period of more than 12 months, or more than one normal operating cycle, from the date on which the expenses are incurred.

Deferred expenses comprise prepaid land rentals, office rentals, asset rentals and other deferred expenses.

Prepaid land rentals include land rentals that are not recognised as intangible fixed assets under accounting policy "Intangible fixed assets and amortisation". Prepaid land rentals, office rentals and other rentals are allocated to the interim consolidated income statement on a straight-line basis over the relevant lease terms.

Other deferred expenses comprise the cost of small tools, supplies and spare parts issued for use; renovation costs for furniture and offices; maintenance costs; and deferred expenses relating to service contracts that are expected to generate future economic benefits for the Group. These expenses are capitalised as deferred expenses and allocated to the interim consolidated income statement on a straight-line basis over the estimated useful lives of the related assets.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Payables

Payables are initially recognised at cost. Payables are classified according to their nature as follows:

- Trade payables are trade-related payables arising from purchases of goods and services; and
- Other payables are non-trade payables unrelated to purchases of goods and services.

Payables are classified as short-term or long-term payables on the interim consolidated statement of financial position based on their remaining terms as at the end of the accounting period. However, borrowings and finance lease liabilities for which the Company does not have the right to defer settlement at any time within 12 months from that date are classified as short-term liabilities.

Borrowings and finance lease liabilities

Borrowings and finance lease liabilities include borrowings and finance lease liabilities from banks, financial institutions, finance companies and other entities. Borrowings and finance lease liabilities are classified as short-term or long-term borrowings and finance lease liabilities on the interim consolidated statement of financial position based on their remaining terms as at the end of the accounting period. However, liabilities for which the Company does not have the right to defer settlement at any time within 12 months from that date are classified as short-term liabilities.

Borrowing costs directly attributable to the construction or production of qualifying assets are capitalised during the period required to complete and prepare the assets for their intended use. For general-purpose borrowings, a portion of which is used to construct or produce qualifying assets, the Group determines the borrowing costs eligible for capitalisation by applying a capitalisation rate to the weighted average accumulated expenditure incurred on the construction or production of the qualifying assets. The capitalisation rate is the weighted average of the interest rates applicable to the Group's outstanding borrowings during the accounting period, excluding borrowings obtained specifically to acquire or construct a particular asset. Other borrowing costs are recognised in the interim consolidated income statement when incurred.

Accrued expenses

Accrued expenses comprise liabilities for goods and services received from suppliers during the accounting period but not yet paid for because invoices or sufficient accounting records and supporting documents have not yet been received. Such liabilities are recognised as operating expenses in the accounting period.

Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of economic benefits will be required to settle the obligation; and the amount of the obligation can be reliably estimated. Provisions are not recognised for future operating losses.

Provisions are measured based on the estimated expenditures required to settle the obligations. If the effect of the time value of money is material, provisions are measured at present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the obligations. The increase in a provision due to the passage of time is recognised as a financial expense. The difference between the provision made at the end of the current accounting period and the unused provision made at the end of the previous accounting period is recognised as an increase or decrease in operating expenses for the accounting period.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Deferred revenue

Deferred revenue represents revenue received in advance for one or more accounting periods and mainly comprises tuition fees, software services, warranty and maintenance services and other services. The Group recognises deferred revenue corresponding to the obligations that it is required to fulfil in the future. When the revenue recognition criteria are satisfied, unearned revenue is recognised in the interim consolidated income statement for the accounting period to the extent that those criteria have been satisfied.

Equity

Owners' contributed capital is recognised based on the amounts actually contributed by shareholders and is presented at the par value of the shares.

Share premium represents the difference between the par value and the actual issue price of shares and the difference between the repurchase price and the reissue price of treasury shares.

Owners' other capital represents other capital of the owners as at the reporting date and mainly relates to the recognition of the capital increase from undistributed earnings of the subsidiaries.

Foreign exchange differences represent exchange differences arising when the Company translates the financial statements of subsidiaries prepared in foreign currencies into Vietnamese Dong for consolidation purposes.

Undistributed earnings represent the Group's accumulated results after corporate income tax as at the reporting date.

Appropriation of profit

The Group's dividends are recognised as liabilities in the consolidated financial statements for the accounting period on the date the dividend distribution is approved and the Group no longer has the right to refuse its obligation to pay dividends to its shareholders.

Net profit after corporate income tax may be distributed to shareholders following approval by the Shareholders' General Meeting and after appropriations to funds in accordance with the Group's charter and Vietnamese regulations.

The Group's funds are as follows:

(a) Investment and development fund

The investment and development fund is mainly appropriated from the Group's net profit after corporate income tax. The fund is used to finance the Group's development projects.

For education activities, the investment and development fund is appropriated from profit before tax in accordance with the Law on Higher Education No. 125/2025/QH15, promulgated by the National Assembly of Vietnam on 10 December 2025. The fund is used to invest in the development of higher education institutions and educational activities; construct facilities; purchase equipment; train and develop lecturers, education management personnel and employees; support learners' study and living activities; and fulfil social responsibilities.

(b) Bonus and welfare fund

The bonus and welfare fund is appropriated from the Group's net profit after corporate income tax and approved by the shareholders at the Shareholders' General Meeting. The fund is presented as a liability on the interim consolidated balance sheet. It is used to reward employees and improve their welfare and living conditions.

(c) Other reserves

Other reserves within owners' equity are appropriated from net profit after corporate income tax. The appropriation and use of other reserves within owners' equity are made in accordance with the Group's prevailing financial policies and are approved by the shareholders.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Revenue recognition

(a) Revenue from sales of goods

Revenue from sales of goods is recognised in the interim consolidated income statement when all five (5) of the following conditions are satisfied:

- The Group has transferred to the buyer the significant risks and rewards incidental to ownership of the products or goods;
- The Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the products or goods sold;
- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the sale will flow to the Group; and
- The costs associated with the sale can be measured reliably.

Revenue is not recognised where there is material uncertainty regarding the recoverability of the sales proceeds or the possibility that the goods sold may be returned.

Revenue is recognised according to the substance rather than the form of a transaction and is allocated to each obligation to supply products or goods.

(b) Revenue from rendering of services

Revenue from rendering of services is recognised in the interim consolidated income statement when the services are rendered, by reference to the stage of completion of each transaction, assessed based on the proportion of services provided relative to the total services to be provided. Revenue from rendering of services is recognised only when all four of the following conditions are satisfied:

- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the service transaction will flow to the Group;
- The stage of completion of the transaction at the consolidated balance sheet date can be measured reliably; and
- The costs incurred for the transaction and the costs required to complete the service transaction can be measured reliably.

Revenue from rendering of services includes:

Revenue from software export, software development, system integration and informatics services

Revenue is recognised in the interim consolidated income statement by reference to the percentage of completion of the work as at the end of the accounting period. The percentage of completion is assessed based on surveys of work performed or the proportion of costs incurred or time spent on the work completed as at the end of the accounting period relative to the total estimated contract costs or total estimated contract duration. Where the outcome of a contract cannot be reliably estimated, revenue is recognised only to the extent of contract costs incurred that are likely to be recoverable.

Revenue from tuition fees and other fees

Revenue is recognised in the period in which the services are rendered. Most tuition fees and other fees are collected in advance at the beginning of each semester. Tuition fees and other fees collected in advance from students are recognised as unearned revenue on the interim consolidated statement of financial position and recognised in the interim consolidated income statement during the accounting period in which the relevant semester occurs.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Revenue recognition (continued)

(c) Interest income

Interest income is recognised based on the actual time and the applicable interest rate for each period when both of the following conditions are satisfied:

- It is probable that the economic benefits associated with the transaction will flow to the Group; and
- The amount of revenue can be measured reliably.

(d) Dividend and distributable profit income

Dividend and distributable profit income is recognised when both of the following conditions are satisfied:

- It is probable that the economic benefits associated with the transaction will flow to the Group; and
- The amount of revenue can be measured reliably.

Dividend and distributable profit income is recognised when the Group has established its right to receive dividends or distributable profits from the investees.

Sales deductions

Sales deductions comprise trade discounts, sales returns and sales allowances. Sales deductions arising in the same accounting period as the related sales of products, goods or services are recognised as reductions of revenue in that accounting period.

Sales deductions relating to products, goods or services sold during the accounting period that arise after the interim consolidated statement of financial position date but before the interim consolidated financial statements are issued are recognised as reductions of revenue for the reporting accounting period.

Cost of goods sold and services rendered

Cost of goods sold and services rendered represents the total costs incurred for finished goods, merchandise and materials sold and services rendered to customers during the accounting period. Such costs are recognised in accordance with the matching principle and the principle of prudence.

Financial expenses

Financial expenses represent expenses arising from financial activities during the accounting period and mainly comprise interest expenses, provisions for losses on financial investments and foreign exchange losses.

Selling expenses

Selling expenses represent expenses actually incurred in the process of selling products and goods and rendering services by the Group.

General and administration expenses

General and administration expenses represent expenses actually incurred in the Group's general administration activities.

Earnings per share

The Group presents basic earnings per share ("EPS") and diluted earnings per share for all of its ordinary shares. Basic earnings per share is calculated by dividing the profit or loss attributable to holders of the Group's ordinary shares by the weighted average number of ordinary shares. Diluted earnings per share is calculated by adjusting the profit or loss attributable to holders of ordinary shares and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares, including convertible bonds and share options.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Current and deferred corporate income tax

Corporate income tax comprises all corporate income tax calculated on taxable income. Corporate income tax expense comprises current corporate income tax expense and deferred corporate income tax expense.

Current corporate income tax is the amount of corporate income tax payable or recoverable in respect of taxable income and the corporate income tax rate applicable to the current accounting period. Current and deferred corporate income tax is recognised as income or an expense in determining profit or loss for the accounting period in which it arises, except where the corporate income tax arises from a transaction or event recognised directly in owners' equity in the same or a different accounting period.

Deferred corporate income tax is provided in full, using the liability method, on temporary differences arising between the carrying amounts of assets and liabilities in the consolidated financial statements and their respective corporate income tax bases. Deferred corporate income tax is not recognised when a deferred corporate income tax liability arises from the initial recognition of an asset or liability in a transaction other than a business combination that, at the time of the transaction, affects neither accounting profit nor taxable profit or loss. Deferred corporate income tax is determined using the tax rates expected to apply in the fiscal year in which the asset is recovered or the liability is settled, based on tax rates enacted or substantively enacted as at the interim consolidated statement of financial position date.

Deferred corporate income tax assets are recognised to the extent that it is probable that future taxable profits will be available against which the deductible temporary differences can be utilised.

Global minimum tax

On 29 November 2023, the National Assembly of Vietnam passed Resolution No. 107/2023/QH15 ("Resolution 107") on the application of the Qualified Domestic Minimum Top-up Tax ("QDMTT") rule and the Income Inclusion Rule ("IIR"). These rules are consistent with the OECD's Global Anti-Base Erosion Model Rules under Pillar Two ("BEPS 2.0") and are effective from 1 January 2024 (collectively, the "Global Minimum Tax Rules"). The Resolution requires large multinational enterprise groups to pay corporate income tax at a global minimum rate of 15% on profits earned in the jurisdictions in which they operate.

Related parties

Enterprises and individuals that directly, or indirectly through one or more intermediaries, control, are controlled by, or are under common control with the Group, including the holding company, subsidiaries and fellow subsidiaries, are related parties of the Group. Associates; individuals who directly or indirectly hold voting rights in the Group that give them significant influence over the Group; key management personnel, including members of the Board of Directors, the Board of Management and the Supervisory Board; close family members of such individuals; and entities associated with such individuals are also considered related parties.

In considering each related-party relationship, the Group considers the substance of the relationship and not merely its legal form.

4. SEGMENT REPORTING

A segment is a separately identifiable component of the Group engaged in selling goods or rendering related services (a "business segment"), or in selling goods or rendering services within a particular economic environment (a "geographical segment"). Each segment is subject to risks and returns that are different from those of other segments. The Group's primary segment reporting format is based on business segments.

Information technology ("IT") and telecommunication

- ***Global IT products and services*** include software production; consulting and implementation services based on S.M.A.C/IoT technologies; digital transformation solutions; enterprise IT systems; quality assurance testing; embedded software product design; and implementation and management services for enterprise resource planning ("ERP") systems for customers outside Vietnam;
- ***Domestic IT products and services*** include application software solutions; information system integration services and solutions; IT equipment; data centre services; network and security system design and implementation; and authorised warranty and maintenance services for IT equipment for customers in Vietnam;
- ***Telecommunication*** includes internet services for individuals and households; internet services for enterprises, such as internet leased lines; domestic and international telecommunications; domain names; hosting; web portals; IPTV and other services; and
- ***Digital content*** includes online services for enterprises and individual customers, such as online newspapers, including VnExpress.net, Ngoisao.net, iOne.net and Gamethu.vn; online advertising; advertising networks (AdNetwork); online music; online payments and other services.

From 1 January 2026, the Group changed the consolidation method applied to FPT Telecom Joint Stock Company ("FTEL") from full consolidation, as applied to a subsidiary, to the equity method, as applied to investments in joint ventures and associates. Accordingly, the Telecommunication and Digital Content segment will no longer be presented in the notes to the consolidated financial statements from 2026. The Group's share of profit from FTEL as an associate is presented within the Investment, Education and Others segment.

Investment, education and others

This segment includes education and training services in information technology and business administration at general education, college, university and postgraduate levels; management of financial investments; management and development of real estate projects serving the Group's infrastructure requirements; and telecommunication and digital content.

4. SEGMENT REPORTING (CONTINUED)

(a) Segment information based on the business activities of the Group

Current period

Unit: million VND

Items	Information Technology		Investment, education and others	Elimination	Total
	Global IT products and services	Domestic IT products and services			
Segment revenue	**18,901,928**	**4,236,061**	**3,477,309**	**(346,798)**	**26,268,501**
Segment expenses (i)					
Directly attributable expenses	(16,010,899)	(3,995,302)	(2,723,630)	341,619	(22,388,213)
In which:					
- Depreciation and amortisation	*(439,089)*	*(220,414)*	*(200,682)*	*15,558*	*(844,627)*
- Allocation of long-term prepaid expenses	*(104,162)*	*(15,806)*	*(63,383)*	*1,350*	*(182,002)*
Share of net profit from associates	**11,871**	**1,432**	**1,410,095**	**-**	**1,423,398**
Segment operating result (ii)	**2,902,900**	**242,191**	**2,163,774**	**(5,179)**	**5,303,686**
Segment profit before tax	**3,005,060**	**307,712**	**5,298,420**	**(2,896,956)**	**5,714,236**
Segment assets as at 30/06/2026	37,471,472	10,242,147	33,979,241	(8,129,754)	73,563,106
Segment liabilities as at 30/06/2026	22,846,616	6,976,501	10,726,840	(7,982,532)	32,567,425
Total expenses for acquisition of fixed assets and long term prepaid expenses for 6 months of the year 2026	277,407	529,657	898,638	(17,200)	1,688,502

(i) The Segment expenses arising from the segment's business activities are charged directly to that segment, and part of the business costs are allocated to that segment. Accordingly, segment expenses include the cost of sales, selling and administration expenses.

(ii) The Segment result is segment revenue minus segment expenses (excluding financial income and expenses and the net of other income versus other expenses). Consequently, in the "Investment, education and others" segment, the segment result is significantly lower than the segment profit before tax due to VND 3,135 billion in financial income and other income (most of which is dividend collected from subsidiaries of the parent).

4. SEGMENT REPORTING (CONTINUED)

(i) The fair values of these investments are determined based on the closing market prices on the stock exchanges and the number of shares held by the Group as at the end of the accounting period/financial year.

(ii) As the Vietnamese Accounting Standards and the Vietnamese Corporate Accounting System currently do not provide detailed guidance on the determination of fair value using valuation techniques for unquoted financial investments, the Group has not been able to determine the fair values of these investments for disclosure in the interim consolidated financial statements. The fair values of these investments may differ from their carrying amounts.

(iii) From 1 January 2026, the Group changed the method of consolidation applied to FPT Telecom Joint Stock Company ("FTEL") from full consolidation (applicable to subsidiaries) to the equity method (applicable to associates and joint ventures).

25. SHAREHOLDERS' EQUITY (CONTINUED)

a. Equity movement (continued)

(i) Capital increase from owners' equity for existing shareholders and dividend declared during the period:

During the period, pursuant to the Resolution of the 2026 Annual General Meeting of Shareholders dated 16 April 2026 and the Resolution No. 01.05-2026/NQ-HĐQTFPT dated 18 May 2026, the Company paid the remaining dividend for 2025 in cash at a rate of 10% of par value, amounting to VND 1,703,507,121,000.

Pursuant to the Resolutions of the Board of Directors of subsidiaries, the subsidiaries increased their charter capital from owners' equity through issuing shares to existing shareholders.

(ii) Appropriation to funds during the period:

Pursuant to the Resolutions of the Board of Directors of subsidiaries, the subsidiaries appropriated the bonus and welfare fund, and appropriated/used the investment and development fund.

b. Number of outstanding shares

	30/06/2026 Number of shares	31/12/2025 Number of shares
Authorised share capital	**1,703,507,121**	**1,703,507,121**
Issued shares	**1,703,507,121**	**1,703,507,121**
Ordinary shares	1,703,507,121	1,703,507,121
Shares subject to restriction in ownership transfer	*31,584,406*	*31,584,406*
Treasury shares	-	-
Ordinary shares	-	-
Shares subject to restriction in ownership transfer	-	-
Outstanding shares in circulation	**1,703,507,121**	**1,703,507,121**
Ordinary shares	1,703,507,121	1,703,507,121
Shares subject to restriction in ownership transfer	*31,584,406*	*31,584,406*

All ordinary shares have a par value of VND 10,000. Each share is entitled to one vote at shareholders' meetings of the Company. Shareholders are entitled to receive dividends as declared at each point in time. All ordinary shares are ranked equally with regard to the Company's residual assets. In respect of shares bought back by the Company, all rights are suspended until those shares are re-issued.

Shares subject to restriction in ownership transfer have a par value of VND 10,000. These shares are subject to restrictions according to which shareowners are not allowed to resell their shares within specified term from the date of issuance.

25. SHAREHOLDERS' EQUITY (CONTINUED)

	22,722,342,755,291	**27,998,478,773,755**

34. EARNINGS PER SHARE

a. Basic earnings per share

Basic earnings per share is calculated by dividing the net profit attributable to shareholders after deducting the bonus and welfare fund and preferred share dividend divided by the weighted average number of ordinary shares outstanding during the period adjusted for bonus shares issued during the period and excluding treasury shares. Details are as follows:

	From 01/01/2026 to 30/06/2026	From 01/01/2025 to 30/06/2025
	VND	VND
Accounting profit after tax	5,054,958,601,533	4,431,763,974,648
Appropriation to bonus and welfare fund (*)	-	-
Weighted average number of outstanding ordinary shares	1,703,507,121	1,695,910,625
Basic earnings per share	**2,967**	**2,613**

(*) As at 30 June 2026 and 30 June 2025, the Company had not yet determined the amount to be appropriated to the bonus and welfare fund for the six-month periods and therefore such appropriation was not reflected in the calculation of basic earnings per share.

34. EARNINGS PER SHARE (CONTINUED)

b.Diluted earnings per share

Diluted earnings per share is equal to the basic earnings per share. The Company did not have any potential ordinary shares to be dilutive during the period and up to the date of the interim consolidated financial statements.

35. RELATED PARTY TRANSACTIONS AND BALANCES

Key related parties and relationship are given as below:

Company (*)	Relationship
Synnex FPT Joint Stock Company	Associate

36. COMMITMENTS

Commitments under operating leases

The Group signed operating leases contracts (including: offices, teaching locations, housing and others). Future payment commitments under the signed contracts are as follows:

	30/06/2026	31/12/2025
	VND	VND
Within one year	820,118,811,955	1,003,048,814,934
Between one and five years	1,605,172,878,995	1,921,066,175,567
Over five years	651,140,009,836	770,608,131,792
	3,076,431,700,786	**3,694,723,122,293**

Capital commitments

Capital expenditure (including: school construction projects, centers for research and development and purchase of other fixed assets) contracted for at the consolidated balance sheet date but not recognised in the interim consolidated financial statements was as follows:

	30/06/2026	31/12/2025
	VND	VND
Capital commitments	755,746,137,287	1,788,310,602,983

37. OFF INTERIM CONSOLIDATED STATEMENT OF FINANCIAL POSITION ITEMS

Doubtful debts written off

	30/06/2026	31/12/2025
	VND	VND
Doubtful debts	45,009,974,118	729,438,551,433

38. CONTINGENT LIABILITIES

Obligation for restoration costs for leased lands

The Group signed land rental contracts and carried out construction and infrastructure work on these leased lands. Majority of the land rental contracts do not explicitly state the Group's land restoration obligation after the rental periods. The Company's Board of Management assessed that the Group may have future obligations for dismantling and removing the assets on lands and restoring the lands to their original conditions at the end of the lease terms. These obligations can only be ascertained when there are further events in the future, for example, additional discussion with the lessors or when the governmental authority promulgates additional legal documents to clarify the lessees' obligations when the land lease contracts do not explicitly state provisions for land restoration obligations. Accordingly, the Group did not recognise the provision for land restoration costs for leased lands in the Group's interim consolidated financial statements for the six-month period ended 30 June 2026.

39. COMPARATIVE FIGURES

As a result of the first-time adoption of the new accounting regime (Note 2), the Board of Management has reclassified the comparative figures to conform with the current period's presentation.

- Interest on held-to-maturity investments is presented as part of the balance of "Held-to-maturity investments", instead of being presented under "Other receivables" as previously reported;
- Lendings are presented as part of the balance of "Held-to-maturity investments", instead of being presented under "Loan receivables" as previously reported;
- Provision for lendings and held-to-maturity investments is presented as part of the balance of "Provision for impairment of held-to-maturity investments", instead of being presented under "Provision for doubtful debts" and "Held-to-maturity investments" as previously reported;
- Dividends payables are presented under the line item "Dividends and profit distribution payables", rather than under "Other current payables" as previously reported; and
- Budget sources and other funds are presented as part of the balance of "Other reserves", instead of being presented under "Budget sources" as previously reported.

Interim consolidated statement of financial position (extract):

40. EVENTS AFTER THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS DATE

Share issuance:

Pursuant to the Resolution of the 2023 Annual General Meeting of Shareholders dated 6 April 2023, the Resolution of the 2025 Annual General Meeting of Shareholders dated 15 April 2025, the Resolution of the 2026 Annual General Meeting of Shareholders dated 16 April 2026, and the Resolution of the Board of Directors No. 02.05-2026/NQ-HĐQTFPT dated 18 May 2026, the Company issued shares under the "Share Issuance Programme for Employees with Outstanding Contributions in 2025" and the "Share Issuance Programme for Senior Executives in 2026". Accordingly, the Company issued a total of 10,819,301 shares at a par value of VND 10,000 per share, increasing its charter capital to VND 17,143,264,220,000 (equivalent to 1,714,326,422 shares) on 16 July 2026.

Pursuant to the Resolution of the 2026 Annual General Meeting of Shareholders dated 16 April 2026 and the Resolution of the Board of Directors No. 02.07-2026/NQ-HĐQTFPT dated 31 July 2026, the Company approved the implementation of a plan to issue shares to existing shareholders to increase share capital from owners' equity at a rate of 10% based on the par value of shares.

The interim consolidated financial statements for the six-month period ended 30 June 2026 were approved by the Deputy General Director of the Company (as authorised by the Company's Legal Representative) on 17 August 2026.
