STATEMENT OF MANAGEMENT

Management of Military Commercial Joint Stock Bank ("the Bank") is pleased to present this report and the separate financial statements of the Bank for the year ended 31 December 2024.

MANAGEMENT'S RESPONSIBILITY FOR THE SEPARATE FINANCIAL STATEMENTS

Management of the Bank is responsible for the separate financial statements for the year ended 31 December 2024 which give a true and fair view of the separate financial position of the Bank, its separate statement of income and its separate cash flows for the year. In preparing these separate financial statements, Management is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the separate financial statements for the year ended 31 December 2024; and
- prepare the separate financial statements for the year ended 31 December 2024 on the going concern basis unless it is inappropriate to presume that the Bank will continue its business.

Management of the Bank is responsible for ensuring that proper accounting records are kept which disclose, with reasonable accuracy at any time, the separate financial position for the year ended 31 December 2024 of the Bank and ensuring that the accounting records comply with the applied accounting system. Management is also responsible for safeguarding the assets of the Bank and take reasonable steps for the prevention and detection of fraud and other irregularities.

Management confirmed that the Bank has complied with the above requirements in preparing the accompanying separate financial statements for the year ended 31 December 2024.

STATEMENT OF MANAGEMENT

Management of the Bank does hereby state that, in its opinion, the accompanying separate financial statements give a true and fair view of the separate financial position of the Bank as at 31 December 2024, its separate results of operations and its separate cash flows for the year then ended in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for credit institutions promulgated by the State Bank of Vietnam and the statutory requirements relevant to preparation and presentation of separate financial statements.

INDEPENDENT AUDITOR'S REPORT
To the Shareholders
Military Commercial Joint Stock Bank

We have audited the accompanying separate financial statements of Military Commercial Joint Stock Bank ("the Bank"), which comprise the separate statement of financial position as at 31 December 2024, the separate statement of income and the separate statement of cash flows for the year ended and the explanatory notes thereto which were authorized for issue by the Bank's Management on 15 March 2025, as set out on pages from 6 to 81.

Management's Responsibility

The Bank's Management is responsible for the preparation and fair presentation of these separate financial statements in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for credit institutions stipulated by the State Bank of Vietnam and the relevant statutory requirements applicable to financial statements, and for such internal control as Management determines is necessary to enable the preparation of the separate financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these separate financial statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the separate financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Bank's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Bank's Management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Auditor's Opinion

In our opinion, the separate financial statements give a true and fair view, in all material respects, of the unconsolidated financial position of Military Commercial Joint Stock Bank as at 31 December 2024 and of its unconsolidated results of operations and its unconsolidated cash flows for the year then ended in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for credit institutions stipulated by the State Bank of Vietnam and the relevant statutory requirements applicable to financial reporting.

1. GENERAL INFORMATION (continued)

Subsidiaries (continued)

(*) Under the joint venture agreement between the Bank and Shinsei Bank (Japan), the Bank reserves the right to appoint the General Director.

(**) On 17 October 2024, the SBV announced the decision for the mandatory transfer of Ocean Commercial One Member Limited Liability Bank to the Bank, according to the mandatory transfer plan approved by the SBV. After the mandatory transfer, Ocean Commercial One Member Limited Liability Bank continues to operate as a single-member limited liability bank wholly owned by the Bank and is allowed to operate commercial banking activities in accordance with regulations. According to the Law on Credit Institutions No. 32/2024/QH15 dated 18 January 2024, the Bank is not required to consolidate the financial statements of the mandatorily transferred commercial bank.

As of 31 December 2024, the bank has not yet contributed capital to Ocean Commercial One Member Limited Liability Bank, i.e. the Bank's contributed capital to Ocean Commercial One Member Limited Liability Bank is 0 (zero) VND.

Ocean Commercial One Member Limited Liability Bank was renamed as Modern Bank of Vietnam Limited ("MBV") in accordance with Decision No. 741/QD-TTGSNH1 dated 5 December 2024 of the Banking Supervision Agency under the State Bank of Vietnam.

2. ACCOUNTING PERIOD AND ACCOUNTING CURRENCY

2.1 *Annual accounting period*

The Bank's annual accounting period starts on 1 January and ends on 31 December.

2.2 *Accounting currency*

The currency used in the preparation of the separate financial statements of the Bank is Vietnam dong ("VND"). For the purpose of preparing the separate financial statements, all amounts are rounded to the nearest million and presented in VND million except for presented otherwise. The presentation makes no impact on readers' view of the separate financial position, separate statement of income and separate cash flows of the Bank.

3. APPLIED ACCOUNTING STANDARDS AND SYSTEM

3.1 *Statement of compliance*

Management of the Bank confirms that the accompanying separate financial statements have been prepared in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for credit institutions promulgated by the SBV and the statutory requirements relevant to preparation and presentation of financial statements.

3. APPLIED ACCOUNTING STANDARDS AND SYSTEM (continued)

3.2 Basis of preparation the financial statements

The separate financial statements of the Bank are prepared in accordance with the Vietnamese Accounting System for credit institutions required under Decision No. 479/2004/QD-NHNN issued on 29 April 2004 ("Decision 479") promulgating the chart of accounts of credit institutions; Decision No. 16/2007/QD-NHNN dated 18 April 2007 on the financial reporting regime applicable to credit institutions ("Decision 16") and Circular No 27/2021/TT-NHNN issued on 31 December 2021 amending chart of accounts of credit institutions enclosed with Decision 479 and regulations on Financial statements of credit institutions enclosed with Decision 16 and other Vietnamese Accounting Standards issued by the Ministry of Finance as per:

- Decision No. 149/2001/QD-BTC dated 31 December 2001 on the Issuance and Promulgation of Four Vietnamese Accounting Standards (Series No.1);
- Decision No. 165/2002/QD-BTC dated 31 December 2002 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series No.2);
- Decision No. 234/2003/QD-BTC dated 30 December 2003 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series No. 3);
- Decision No. 12/2005/QD-BTC dated 15 February 2005 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series No. 4); and
- Decision No. 100/2005/QD-BTC dated 28 December 2005 on the Issuance and Promulgation of Four Vietnamese Accounting Standards (Series No. 5).

Accordingly, the accompanying separate financial statements and their utilization are not designed for those who are not informed about Vietnam's accounting principles, procedures and practices and furthermore are not intended to present the separate financial position and separate results of operations and separate cash flows in accordance with accounting principles and practices generally accepted in countries other than Vietnam.

The Bank prepares the separate financial statements to reflect the Bank's own operations. In addition, the Bank has also prepared the consolidated financial statements to reflect the operations of the Bank and its subsidiaries in accordance with Vietnamese Accounting Standard No. 25 - *Consolidated financial statements and accounting for investments in subsidiaries.*

Users of the separate financial statements should read them together with the said consolidated financial statements in order to obtain full information on the consolidated financial position, the consolidated statement of income and consolidated cash flows of the Bank and its subsidiaries.

Items that are not presented in these separate financial statements regarding the financial reporting regime for credit institutions as required by Decision No. 16/2007/QD-NHNNVN and amending and supplementing regulations issued by the SBV indicate nil balance.

3. APPLIED ACCOUNTING STANDARDS AND SYSTEM (continued)

3.3 Assumptions and uses of estimates

The preparation of the separate financial statements requires Management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities. These estimates and assumptions also affect the income, expenses and the resultant provisions. Such estimates are necessarily based on assumptions involving varying degrees of subjectivity and uncertainty and actual results may differ resulting in future changes in such items.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

4.1 Changes in accounting policies

The accounting policies adopted by the Bank in the preparation of separate financial statements are consistent with those followed in the preparation of the Bank's separate financial statements for the year ended 31 December 2023, except for the accounting policies as described below.

For payments on behalf arising from off-balance sheet commitments, the Bank shall classify loans based on overdue days starting from the date when the Bank committed obligation:

- Group 3 – Sub-standards: overdue for less than 30 days;
- Group 4 – Doubtful: overdue from 30 days to less than 90 days;
- Group 5 – Loss: overdue for 90 days or more.

Bad debts are those belonging to Groups 3, 4, 5.

The classification of off-balance-sheet credit commitments is performed solely for the purpose of managing and monitoring the quality of credit activities. The Bank does not make any allowance for off-balance-sheet commitments, unless the Bank is required to fulfil a payment obligation under such commitments. In this case, the payment made on behalf of the borrower is classified and provided for allowance according to the accounting policies described above.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.5 Classification, level and method for making allowance for credit losses (continued)

If a customer has more than one debt with the Bank and any of the outstanding debts is classified into a higher risk group, the entire remaining debts of such customer should be classified into the corresponding higher risk group.

The Bank have been required to use the updated information from Credit Information Centre ("CIC") on the loan group of customers at the time of classification to adjust the classification results of their debts and off-balance sheet items. If a customer's debts with the Bank is classified into a lower risk group than the loan group under the list of customers provided by CIC, the Bank shall adjust the loan classification according to list of customers provided by CIC.

When the Bank participates in a syndicated loan as a participant, it classifies loans (including syndicated loans) of the customer into the higher of the risk group assessed by other participating banks and by the Bank itself.

At the same time, the Bank also applied the following regulations :

- Regulation on restructuring and retention of the latest debt classification for the loans that meet the requirements of Decree No. 55/2015/ND-CP ("Decree 55") dated 9 June 2015 on credit policy for agricultural and rural development and the regulations amending and supplementing Decree 55.

- Circular No. 02/2023/TT-NHNN ("Circular 02") issued by SBV dated 23 April 2023 providing instructions for credit institutions and foreign branch banks on debt rescheduling and retention of debt category to assist borrowers in difficulties, and Circular No. 06/TT-NHNN ("Circular 06") issued by the SBV dated 18 June 2024 amending, supplementing some articles of Circular 02.

- The Bank also applies Circular No. 53/2024/TT-NHNN ("Circular 53") issued by the State Bank of Vietnam on 4 December 2024 regulating the restructuring of debt repayment terms for customers facing difficulties due to the impact and damage of Typhoon No. 3, flooding and landslides after Typhoon No. 3 and the Prime Minister's Decision No. 1510/QD-TTg ("Decision 1510") issued on 4 December 2024 on the classification of assets, allowance rate, the method of making risk allowance and the use of allowance to handle risks for debts of customers facing difficulties due to the impact, damage of Typhoon No. 3

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.5 Classification, level and method for making allowance for credit losses (continued)

Specific allowance for credit losses

According to the provisions of Circular 11 (before 1 July 2024) and Decree 86 (from 11 July 2024), specific allowance for credit losses for debts at the end of each month are appropriated based on the allowance rates corresponding to the results of debt classification and principal balance minus the discounted value of the collateral at the last day of the month. Specific allowance as at 31 December 2024 is made based on the principal balance less discounted value of collaterals multiplied by Allowance rates which are determined based on the loan classification results as at 31 December 2024.

The maximum value and deduction rate of collateral are determined in accordance with the allowances of Circular 11 (before 1 July 2024) and Decree 86 (from 11 July 2024), whereby each type of collateral has a certain maximum deduction rate for the purpose of calculating risk allowance.

Additional Specific Allowance

The bank made additional specific allowance for debts that are restructured, exempt or reduction of interest rate and retained in debt classification group regulated by Circular 01, Circular 03, Circular 14, Circular 02, Circular 06, Circular 53 and Decision 1510 as follow :

- Determine specific allowance shall be made for all outstanding debt of borrowers according to the results of debt classification in Circular 11 (before 1 July 2024) and Decree 86 (from 11 July 2024): (A)
- Determine specific allowance for outstanding debts of the debt group which are kept unchanged according to Circular 01, Circular 03, Circular 14; Circular 02 and Circular 06; Circular 53 and Decision 1510 for the remaining debts of borrowers according to Circular 11(Before 1 July 2024) and Decree 86 (After 11 July 2024): (B)
- Additional specific allowance (C) = (A) – (B) shall be determined as follows:

For debts restructured regulated by Circular 02 and Circular 06:

- By 31/12/2023: At least 50% of the additional allowance;
- By 31/12/2024: 100% of the additional allowance.

For debts restructured regulated by Circular 53 and Decision no 1510:

- By 31/12/2024: At least 35% of the additional allowance;
- By 31/12/2024: At least 70% of the additional allowance.
- By 31/12/2026: 100% of the additional allowance.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.5 Classification, level and method for making allowance for credit losses (continued)

In addition, the Bank makes specific allowance for customers facing difficulties due to the impact and damage of Typhoon No. 3 specified in Decision 1510 as follows:

- Determine specific allowance shall be made for the all outstanding debt of the customer according to the results of debt classification according to the allowances of Circular 31 and Decree 86: (A)
- Determine specific allowance for the outstanding debt of the debt group which are kept un changed according to Circular 53 and Decision 1510 and for the remaining outstanding debt of the customer according to Circular 31 and Decree 86: (B)
- Additional specific allowance (C) = (A) – (B) shall be determined as follows:
  - By 31/12/2024: At least 35% of the additional allowance;
  - By 31/12/2024: At least 70% of the additional allowance.
  - By 31/12/2026: 100% of the additional allowance.

General allowance

According to Circular 11 (before 1 July 2024) and Decree 86 (from 11 July 2024), a general allowance is appropriated at the rate of 0.75% of the total balance at the last day of each month of debts minus deposits, loans, receivables, and other credit extension activities between credit institutions, foreign bank branches and loans classified as loss. General allowance as at 31 December 2024 is calculated based on the results of debt classification and principal balance as at 31 December 2024.

Bad debts written off

Allowance are recognized as an expense on the separate statement of income and used to write-off bad debts. The Bank establishes a Risk Handling Committee to deal with bad debts if they are classified in Group 5 or if the borrower is a dissolved, bankrupt organization or individual who is dead or missing.

Debts written-off against allowance are recorded as in an appropriate off-balance sheet account for monitoring and collection purpose. The amount recovered from the debts previously written-off are recognised in the separate statement of income upon receipt.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.6 Debt purchase, sale

Debt purchase and sale of the Bank are recorded in accordance with Circular 09/2015/TT-NHNN dated 17 July 2015 ("Circular 09") issued by the SBV regulating debt purchase and sale by credit institutions, foreign bank branches and Circular 18/2022/TT-NHNN dated 26 December 2022 ("Circular 18") amending, supplementing to articles of Circular 09 therefore:

- Book value of a purchased and sold debt includes the book value of debt principal and interest and other debt-related financial obligations (if any) by the time of debt purchase and sale for the debt accounted on the balance sheet or off the balance sheet; or the book value being monitored at the time of being removed off the balance sheet or at the time of debt purchase and sale for the debt being removed off the separate statement of financial position.
- Debt purchase and sale price means a sum of money to be paid by a debt purchaser to a debt seller under a debt purchase and sale contract.

Debt purchase

Debts purchased are recorded on the balance sheet of the Bank at the price stated in debt purchase contract and monitoring principles and interest of purchased debts off balance sheet. In case the Bank receives interest on a debt including interest before the Bank purchased the debt, the Bank shall allocate the interest amount according to the following principles: (i) reduce the value of the purchased debt by the interest amount before the purchase; (ii) record as income the interest amount of the period after the Bank purchased the debt.

For the purchased debts, the Bank classifies the paid amount into a group with a risk level not lower than previous debt group that was classified before purchase. Debt classification and allowance for debt purchases are made similarly to loans to other customers according to method described in *Note 4.5*.

Debt sale

Revenue and expense from selling debts are recorded in accordance with Circular 09 and Circular 18. According to Circular 09, the difference between the debt purchase, sale price and debt seller's book value is handled as follows:

- For the debts being recorded on the balance sheet:
  - If the debt sale price is higher than the book value of the debt, the difference shall be accounted as income of the Bank during the year.
  - If the debt sale price is lower than the value of the debt, the difference shall be offset with the compensation paid by an individual or an organization (in case such individual or organization is identified to have caused the damage and must pay compensation under regulations), the insurance sum paid by the insurer or the risk allowance already set aside from expenses; the deficit shall be accounted as a business cost of the Bank.
- For the debt accounted off the balance sheet or debt left off the statement of financial position, the debt sale proceeds shall be accounted as other income of the Bank.

Debt classification and allowance for debt sold (except for written-off loans) not yet been collected in full are performed similarly to loans to other customers according to method described in *Note 4.5*.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.7 Securities held for trading

Securities held for trading include debt securities acquired and held for the purpose of trading. Securities held for trading are initially recognized at cost.

Listed debt securities held for trading are recognized at cost less allowance for diminution in value of securities. Allowance for devaluation of securities is recognized in the separate statement of income under the item *"Net gain/(loss) from trading securities"*. Allowance for credit losses of corporate bonds, which are not listed on the stock market or not registered on the unlisted public company market, is made in accordance with method described in *Note 4.5*.

Gains or losses from sales of securities held for trading are recognized in the separate statement of income. Securities held for trading are derecognized when the rights to receive cash flows from these securities are terminated or the Bank transfers substantially all the risks and rewards of ownership of these securities.

4.8 Investment securities

4.8.1 Available-for-sale investment securities

Available-for-sale investment securities include debt securities held by the Bank for the investment available-for-sale purpose, not regularly traded but can be sold when there is a benefit.

Debt securities are initially recognized at cost which include purchase cost plus directly attributable costs such as brokerage fee, transaction fees or information fees (if any). Accrued interest (for debt securities with interest payment in arrears) and deferred interest (for debt securities with interest payment in advance) is recognized in separate accounts. Discount/premium, which is the difference between the cost and the amount being the par value plus (+) accrued interest (if any) or minus (-) deferred interest (if any) is also recognized in a separate account.

Subsequently, these securities are recorded at amortised cost affected by premium/discount amortisation less allowance for investment securities including allowance for credit risks and allowance for diminution in the value of securities. The interest received in arrears is recorded as follows: Cumulative interest incurred before the purchase date is recorded as a decrease in the accrued interest; cumulative interest incurred after the purchase date is recognized as income based on the accumulated method. The interest received in advance is amortized into the securities investment interest income on a straight-line basis over the terms of the securities investment.

Available-for-sale listed debt securities are recorded at cost less allowance for diminution in the value of securities by referring to the latest transaction at the Stock Exchange within 10 days of the end of the year. In case there are no transactions within 10 days from the end of the year, the Bank shall not make allowances for these securities. The bank made no allowance for Government bond, Government guaranteed bond, Local authority bond. Classified as investment securities. Allowance is recognized in the "*Net gain/(loss) from investment securities and long-term investments*" of the separate statement of income.

Availabe-for-sale unlisted corporate securities are recorded at cost less allowance for credit losses according to the method described in *Note 4.5*.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.8 Investment securities (continued)

4.8.2 Held-to-maturity investment securities

Held-to-maturity investment securities are debt securities purchased by the Bank for the investment purpose of earning interest and the Bank has the capability and intention to hold these investments until maturity. Held-to-maturity investment securities have determined value and maturity dates. In case the securities are sold before the maturity date, the remaining portfolio of these securities will be reclassified to appropriate account before the time of sale.

Held-to-maturity investment securities are recorded and measured similarly to debt securities available-for-sale as presented at *Note 4.8.1.*

4.9 Investment in subsidiaries

A subsidiary is a company controlled by the Bank. Control exists when the Bank has the power to govern the financial and operating policies of the investee so as to obtain economic benefits from its activities. In assessing control, potential voting rights that presently are exercisable are taken into account.

Investments in subsidiaries are initially recognized at cost. Subsequent to initial recognition, these investments are stated at cost less allowance for diminution in value. Dividend distributed from accumulated profit of subsidiaries are recorded in the separate statement of income.

An allowance is made for diminution in investment value if the investee has suffered a loss which may cause the Bank to lose its invested capital, unless there is evidence that the value of the investment has not been diminished. Increase or decrease in allowance for long-term investments is recognized in *"Net gain/ (loss) from investment securities and long-term investments"* on the separate statement of income.

4.10 Other long-term investments

Other long-term investments are investments in other entities in which the Bank holds less than or equal to 11% of voting rights and securities of these entities are not listed on the stock market. These investments are initially recognized at cost. Subsequent to initial recognition, these investments are stated at cost less allowance for Long-term investment.

An allowance is made for diminution in investment value if the investee has suffered a loss which may cause the Bank to lose its invested capital, unless there is evidence that the value of the investment has not been diminished. Allowance for diminution in value is determined as the total actual contributed capital of parties to the investee less (-) the actual owner's equity multiplied (x) by the Bank's ownership percentage in the investee at the year-end.

The allowance is reversed if the recoverable amount of the investments increases after making allowance. It is reversed to the extent that the carrying value of these investments does not exceed the carrying value of the investment assuming that no allowance has been recorded.

Increase or decrease in allowance for long-term investments is recognized in *"Net gain/ (loss) from investment securities and long-term investments"* on the statement of income

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.11 Fixed assets

Fixed assets are stated at cost less accumulated depreciation or amortization.

The cost of a fixed asset comprises its purchase price plus any directly attributable cost of bringing the asset to working condition for its intended use.

Costs related to additions, improvements and renewals are capitalized if these expenses increase future economic benefits expected from using fixed asset higher than original assessment. Expenditures for maintenance and repairs are charged to the separate statement of income.

When assets are sold or liquidated, their cost and accumulated depreciation/amortisation are deducted from the separate statement of financial position and any gains or losses resulting from their disposal (being the difference between net proceeds from the sale of assets and the remaining value of assets) are recorded to the separate statement of income.

4.12 Depreciation and amortization

Depreciation of tangible fixed asset and amortization of intangible fixed assets is calculated on a straight-line basis over the estimated useful lives of these assets as follows:

Buildings and construction	6 – 25 years
Machines and equipment	3 – 7 years
Transportation vehicles and transmission devices	6 years
Other tangible fixed assets	3 – 5 years
Land use rights (*)	30 – 50 years
Computer software	3 years

(*) Indefinite land use rights with fees or by transfer are not amortized. Land use rights with definite terms or leased land use rights are amortized over their terms.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.13 Receivables

4.13.1 Receivables classified as credit risk-bearing assets

Receivables classified as credit risk-bearing assets are recognized at cost deducting credit risk allowance and classified and provided for allowance by the Bank in accordance with method described in *Note 4.5*.

4.13.2 Other receivables

Other receivables not classified as credit risk-bearing assets of the Bank are initially recorded at cost deducting allowance for doubtful debt.

Allowance for receivables is determined based on the overdue status of debts or expected loss of current debts in case the debts are not due for payment yet but the corporate debtors have bankrupted or have fled from business address, or of individual debtors who are being prosecuted, detained or tried by law enforcement bodies or have deceased or the debt has been requested to be tried but cannot be executed due to the debtor having fled his place of residence; the debt has been sued for debt collection but the case has been suspended. Allowance expense incurred is recorded in "*Allowance expenses*" on separate statement of income.

Allowance for overdue debts is made as follows:

Overdue status	*Allowance rate*
From over six months to under one year	30%
From one to under two years	50%
From two to under three years	70%
From three years and above	100%

4.14 Prepaid expenses and deferred expenses

Prepaid expenses are reported as short-term or long-term prepaid expenses on the separate statement of financial position and amortized over the period for which the amount is paid or the period in which economic benefit is generated in relation to these expenses.

4.15 Goodwill

Goodwill acquired in a business combination is initially recognized at cost being the excess of the cost the business combination over the Bank's interest in the fair value of the acquiree's identifiable assets, liabilities and contingent liabilities. If the cost of a business combination is less than the fair value of the net assets of the subsidiary acquired, the difference is recognized directly in the separate statement of income. After initial recognition, goodwill is recognized at cost less any accumulated amortization. Goodwill is amortized on a straight-line basis over a period of ten (10) years.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.16 Re-purchase and reverse-repurchase contracts

Securities and valuable papers sold under agreements to repurchase at a specific date in the future (repos) are still recognized in the separate financial statements. The corresponding cash received from these agreements is recognized in the separate statement of financial position as a borrowing and the difference between the sale price and repurchase price is amortized in the separate statement of income over the term of the agreement using the straight-line method based on the interest rate stipulated in the contract.

Conversely, securities and valuable papers purchased under agreements to resell at a specific date in the future are not recognized in the separate financial statements. The corresponding cash paid under theese agreements is recognized as a loan in the separate statement of financial position and the difference between the purchase price and resale price is amortized in the separate statement of income over the term of the agreement using the straight-line method based on the interest rate stipulated in the contract.

4.17 Operating lease

Payments for operating lease are recognized in the separate statement of income on straight line basis based on duration of lease contract.

4.18 Amounts due to the Government and the State Bank of Vietnam

Amounts due to the Government and the State Bank of Vietnam are recognized at cost.

4.19 Deposits from other credit institutions, deposits from customers, other borrowed and entrusted funds and valuable papers issued

Deposits from other credit institutions, deposits from customers, other borrowed and entrusted funds and valuable papers issued are disclosed at the principal amounts outstanding at the end of the year. Expenses for bond issuance are initially deducted from principal amount of the bonds. The Bank then allocates these expenses into *"Interest and similar expenses"* on a straight-line basis according to the terms of value papers.

4.20 Foreign currency transactions

According to accounting policy of the Bank, all transactions are recorded in original currencies. Monetary assets and liabilities denominated in foreign currencies are translated into VND using exchange rates ruling at the separate statement of financial position date *(Note 51)*. Income and expenses arising in foreign currencies during the year are converted into VND at rates ruling at the transaction dates. Foreign exchange differences arising from the translation of monetary assets and liabilities are recognized in the separate statement of income.

4.21 Payables and accruals

Payables and accruals are recognized for amounts to be paid in the future for goods and services received, whether or not billed to the Bank.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.22 Capital and reserves

4.22.1 Ordinary shares

Ordinary shares are classified as equity. Incremental costs directly attributable to the issuance of ordinary shares are recognized as a deduction from share premium in equity.

4.22.2 Share premium

On receipt of capital from shareholders, the difference between the issuance price and the par value of the shares is recorded as share premium in equity.

4.22.4 Reserves

Reserve to supplement charter capital

Before 1 July 2024

According to Decree No. 93/2017/ND-CP issued by the Government of Vietnam on 7 August 2017 ("Decree 93") on the financial regime for credit institutions, every year, the Bank is required to appropriate 5% of profit after tax (unconsolidated) to the reserve to supplement charter capital with the maximum amount of this fund not exceeding the charter capital of the credit institution.

From 1 July 2024

According to the Law on Credit Institutions No. 32/2024/QH15 passed by the National Assembly on 18 January 2024 ("Law on Credit Institutions"), every year, the Bank is required to appropriate 10% of profit after tax (unconsolidated) to the reserve to supplement charter capital with the maximum amount of this fund not exceeding the charter capital of the credit institution.

Financial reserve

According to Decree 93 and the Law on Credit Institutions, every year, the Bank is required to appropriate 10% of profit after tax (unconsolidated) to the financial reserve.

The financial reserve is used to cover remaining losses incurred during the normal course of business after the Company is compensated by the organisations and individuals who make the loss by insurance companies, and by utilisation of allowances provided; and for other purposes in accordance with the laws.

These reserves are non-distributable and recognised as part of equity.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.22 Reserves and funds (continued)

4.22.4 Statutory reserves (continued)

Other reserves

Other reserves under equity are appropriated from profit after tax. The appropriation from profit after tax to these reserves should be approved by the Bank's General Meeting of Shareholders.

4.23 Recognition of income and expenses

4.23.1 Interest income and expenses

Interest income and expenses are recognized in the separate statement of income on an accrual basis. The recognition of accrued interest income of a loan is suspended when such debt is classified in groups 2 to 5 in compliance with Circular 11 (before 1 July 2024) and Circular 31 (from 1 July 2024) and restructured under Circular 01, Circular 02, Decree 55 and Circular 53 will not be recognized in the separate statement of income. Suspended interest income is reversed and monitored off-balance sheet and recognized in the separate statement of income.

4.23.2 Banking services fees

Banking services fees are recognized when the services are performed.

4.23.3 Income from investment activities

Income from securities trading is recognized based on differences between selling price and cost of securities sold.

Cash dividend is recognized in the separate statement of income upon formation of cash dividend right.

Dividend paid in the form of common shares, bonus shares and right shares for existing shareholders, shares distributed from retained earnings are not recognized as an increment in investment value or income of the Bank. Only the quantity of shares is updated.

4.23.4 Income from other services

When the result of the contract is definitely determined, income is recognized based on the stage of completion of work or service. If the result of the contract is not determined, income is only recognized to the extent of recoverable amount of expenses incurred.

4.23.5 Recognition of uncollectible receivables

According to Circular No. 16/2018/TT-BTC dated 7 February 2018 issued by the Ministry of Finance guiding on the financial regime for credit institutions and foreign bank branches, receivables from uncollectible accrued income at the due date are recorded as reduction in revenue if the income has been accrued in the same year or recorded as expense if the income has been accrued in different years and monitored in off-balance sheet. Upon actual receipt of these receivables, the Bank would recognize to income on the separate statement of income.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.24 Corporate income taxes

4.24.1 Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from (or paid to) the tax authorities – using the tax rates and tax laws applied and enacted at the end of the annual accounting period.

Current income tax is charged or credited to the separate statement of income except when it relates to items recognized directly to equity, in this case the current income tax is also recognized in equity.

Current income tax assets and liabilities are offset when there is a legally enforceable right for the Bank to offset current tax assets against current tax liabilities and when the Bank intends to settle its current tax assets and liabilities on a net basis.

4.24.2 Deferred tax

Deferred tax is provided on temporary differences at the end of the annual accounting period between the tax base of assets and liabilities and their carrying amount for the financial reporting purposes.

Deferred tax payables are recognized for temporary taxable differences.

Deferred tax assets are recognized for all deductible temporary differences, deductible amounts carried over subsequent periods of taxable losses and unused tax credits when it is probable that there will be sufficient taxable profit to use deductible temporary differences, taxable losses and tax credits. Previously unrecognized deferred tax assets are reviewed at the end of the year and are recognised only to the extent that it is probable that future taxable profits will be available against which these unrecognised deferred tax assets can be utilised. Deferred tax assets and deferred tax liabilities are determined on the basic of expected tax rate applied when assets are recovered or liabilities are settled and on the basis of tax rate and tax laws which effective at the end of the annual accounting period.

4.25 Off-balance-sheet commitments

Letters of credit ("L/C") which contains a provision that allows the beneficiary to receive payment immediately or at a date before the L/C due date ("UPAS LC")

Prior to 1 July 2024, upon receipt of notice from the reimbursing bank that payment has been made to the beneficiary, the Bank recognises the amount payable to the reimbursing bank as a borrowing from other credit institutions and, at the same time, the amount receivable from the customer as other assets.

From 1 July 2024, when the reimbursing bank makes payment to the beneficiary, the Bank must accept the debt with the reimbursing bank, and at the same time, the customer must accept the debt with the Bank for the amount the reimbursing bank has paid to the beneficiary as committed in the letter of credit. Upon receipt of the notice of the reimbursing bank that payment has been made to the beneficiary, the Bank shall recognise the amount accepted as a debt with the reimbursing bank as a borrowing from other credit institutions, and at the same time, recognise the amount the customer has accepted as debt as a loan to customers.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.26 Derivatives

The Bank enters in currency forward contracts and swap contracts to facilitate customers to transfer, modify or mitigate foreign exchange risk or other market risks, and also for the business purpose of the Bank.

Currency forward contracts

The forwards contracts are recorded at nominal value at the transaction date and are revalued at effective exchange rate at the reporting date and are stated at net value in the separate statement of financial position. Differences upon revaluation at the end of the period are recognised in the "Foreign exchange differences" account in the separate statement of financial position each month and are transferred to the separate statement of income at the end of the annual accounting period or upon maturity when maturity date before the end date of annual accounting period. Differences between the amounts in VND of the foreign currency amounts which are committed to buy/sell at forward rate and spot rate are recognised in the separate statement of income on a straight-line basis over the term of the contracts.

Currency swap contracts

The currency swap contracts are commitments to buy or sell the same amount of foreign currency (only two currencies are used in the transaction) with the same partner, in which there is a transaction with the spot payment term and a transaction with a payment period determined in the future and the rate of the two transactions is determined at the time of determination of spot transaction. Premiums/discounts arising from the difference of the spot exchange rate at the effective date of the contracts and the forward exchange rate will be recognised immediately on the effective date of the contracts as an asset if they are positive or as a liability if they are negative in the separate statement of financial position. This difference is amortised to the separate statement of income on a straight-line basis over the term of the swap contracts.

Interest rate swap contracts

Interest rate swap contracts are commitments to settle the interest amount based on floating or fixed interest rates over the notional principal amounts. The contract value in basic interest rate swap contracts of the same currency is recognised as off-balance sheet items. Income earned and expenses incurred on nominal principal amounts are recognised in the separate statement of income on an accrual basis.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.27 Employee benefits

4.27.1 Post-employment benefits

Post-employment benefits are paid to retired employees of the Bank in Vietnam by the Social Insurance Agency of the Ministry of Labor, Invalids and Social Affairs. The Bank is required to contribute to these post-employment benefits by paying social insurance and occupational accident and disease insurance at the rate of 17% and 0.5%, respectively of the employee's basic monthly salary. Other than that, the Bank has no further obligation. Social insurance and occupational accident and disease insurance are recognized in the separate statement of income when incurred.

4.27.2 Voluntary resignation benefits

The Bank has the obligation, under Article 46 of the Vietnam Labour Law 45/2019/QH14 comes into force from 1 January 2021, to pay allowance arising from voluntary resignation of employees who fully meet the requirements of relevant laws and regulations, equal to one-half month's salary for each year of employment up to 31 December 2008 plus salary allowances (if any). The average monthly salary used in this calculation is the average monthly salary of the latest six-month period up to the resignation date. Allowance arising from voluntary resignation is recognized in the separate statement of income when payments are made.

4.27.3 Unemployment insurance

According to Circular No. 28/2015/TT-BLDTBXH providing guidance for Decree No. 28/2015/ND-CP dated 12 March 2015 on unemployment insurance, from 1 January 2009, the Bank is required to contribute to the unemployment insurance at the rate of 1% of salary and wage fund of unemployment insurance joiners and deduct 1% of monthly salary and wage of each employee to contribute to the unemployment insurance. Unemployment insurance is recognized in the separate statement of income when incurred.

4.28 Segment reporting

A segment is a separate unit of the Bank which participates in providing relevant products and services (segments categorized by business sectors) or providing products and services in a certain economic environment (segments categorized by geographical regions). Each segment bears unique risks and gains different benefits. The fundamental segment report form of the Bank is based on business sectors.

4.29 Related parties

Parties are considered to be related parties of the Bank if a party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions, or when the Bank and other parties are under common control or under common significant influence. Related parties can be enterprises or individuals, including close family members of individuals who are related parties.

4.30 Offsetting

Financial assets and financial liabilities are offsets and the net amount is reported in the separate statement of financial position if, and only if, there is a currently enforceable legal right to offset financial assets against financial liabilities or vice-versa, and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

36. CURRENT CORPORATE INCOME TAX EXPENSE

The Bank has the obligation to pay corporate income tax ("CIT") at the rate of 20% of taxable profits according to Circular No. 78/2014/TT-BTC which came into force from 2 August 2014 guiding the implementation of the Government's Decree No. 218/2013/ND-CP dated 26 December 2013, detailing and guiding the implementation of the law on CIT.

For the Bank's branch in Laos, the Bank calculates and determines its CIT in accordance with the income tax regulations in Laos. According to the Tax Ordinance No. 67 dated 18 June 2019 issued by the Lao P.D.R Parliament and became effective from 17 February 2020, CIT of the branch is defined as 20% of the profit of the branch.

The Bank's tax reports are subject to examination by the tax authorities. Because the application of tax laws and regulations to many types of transactions is susceptible to varying interpretations, amount reported in the separate financial statements could be changed at a later date upon final determination of the tax authorities.

Current corporate income tax payables are determined based on taxable income of the year. Taxable income differs from the one reported in the separate statement of income since taxable income excludes incomes which are taxable or expenses which are deducted in prior periods due to the differences between the Bank's accounting policies and the tax regulations. It also excludes tax exempted income and non-deductible expenses. The current corporate income tax payable of the Bank is calculated based on the statutory tax rates applicable at the end of the period.

Current income tax expense during the year is as follows:

	2024 VND million	*2023 VND million*
Profit before tax	**27,639,316**	**24,688,003**

41. CONTINGENT LIABILITIES AND COMMITMENTS

In the course of its business, the Bank performs financial instruments related to items other than the separate statement of financial position. These financial instruments mainly include guarantees of guarantees and letters of credit. These instruments also create credit risks for the Bank in addition to the credit risks recognized in the balance sheet.

Credit risk of off-balance sheet financial instruments is defined as the ability to introduce credit risk to the Bank when one of the parties related to such financial instrument fails to perform the terms of the contract.

Financial guarantees are conditional commitments that the Bank grants to customers to transact with a third party in the activities of loan guarantee, payment guarantee, contract performance guarantee and bid guarantee. The credit risk associated with the granting of guarantees is essentially the same as that of lending to customers.

A sight commercial letter of credit transaction is a type of transaction in which the Bank provides financing to its customers, usually the buyer/importer of goods and the beneficiary being the seller/exporter. Credit risk in a sight letter of credit is usually low since imported goods are used as collateral for this type of transaction.

A deferred letter of credit transaction will incur a risk when the contract has been performed but the customer does not pay the beneficiary. Deferred payment letters of credit that are not paid by the customer are recognized by the Bank as a mandatory loan and the corresponding liability represents the Bank's financial obligation to pay the beneficiary and fulfil its obligations in guaranteeing for customers.

Banks often require customers to deposit to secure credit-related financial instruments when necessary. The margin value ranges from 0% to 100% of the committed value granted, depending on the customer's reliability level as assessed by the Bank.

Contingent liabilities and commitments are detailed as follows:

45. RELATED PARTY TRANSACTIONS

During normal business operation, the Bank has undertaken transactions with other parties to which the Bank is related. A party is considered to be related if the party has ability to control or to influence other parties in making decision of financial policies and operational activities. A party is related to the Bank if:

(a) Directly, or indirectly through one or more intermediaries, the party:

- controls, is controlled by, or is under common control by Bank (including parents and subsidiaries);

47. FINANCIAL RISK MANAGEMENT POLICIES

The Bank's orientation is to become a diversified financial group. Therefore, the use of financial instruments, including funding from customers (with deposit products and valuable papers issued) and investments in high quality financial assets has become the key activities to help the Bank gain necessary interest rate gaps. From the risk management perspective, the Bank is required to maintain the structure of assets, liabilities and equity (including balance sheet items and off-balance sheet items) for the purpose of ensuring safety and mitigating risks in banking activities. In addition, the Bank has invested in securities or granted credit facilities to other banks. The risks related to currency exchange and interest rates have been managed through applying of position limits to restrict over-concentration and simultaneously participating in activities with balancing impact to minimise risks. By holding various assets being high quality financial instruments, the structure of the Bank's separate statement of financial position would be able to protect the Bank from significant risks during its business processes and ensure liquidity. In addition, the Bank has been also involved in many derivatives transactions related to financial instruments such as currency forward commitments, currency swap commitments, and interest rate swap commitments for the purpose of managing currency risk.

In the process of credit risk management, the Bank has adopted the Credit Handbook which provides in details the lending policies and procedures as well as implementation guidance on standardisation of the Bank's credit activities. Liquidity risk is limited by holding appropriate amounts of cash and cash equivalents as demand deposits ("Nostro"), term deposits at the SBV and other credit institutions and VND million. The safety ratios with risk factors taken into account are also used to manage liquidity risk. The Bank has regularly assessed interest rate gaps, compared to the gaps of domestic markets and international markets to make timely adjustments. In addition, the application of internal risk management processes has become more efficient owing to the deployment of Centralised Capital Management System and Centralised Payment System in which all capital and payment transactions of the Bank are executed by the Head Office. Such centralisation has also helped the Bank to monitor capital movements more effectively and reduce any possible errors and unnecessarily complicated procedures.

48. CREDIT RISK

Credit risk is the inherent risk in the business activities of banks. Credit risk is the possibility of loss due to customers' failure to perform or inability to perform their obligations as committed.
The Bank has maintained an appropriate risk management policy to ensure these following basic principles:

- Establish appropriate risk management environment;
- Operate under healthy credit granting procedure;
- Maintain appropriate credit managing, measuring, supervising procedure; and
- Ensure adequate control on credit risk.

The Bank conducts credit review through multiple levels to ensure that a credit is independently reviewed; at the same time, the loan approval is done on the basis of the credit limit assigned to each competent level. In addition, the Bank's credit approval model has the participation of the Credit Council to ensure that credit approval activities are concentrated with the highest quality.

The Bank is using an internal credit rating system approved by the SBV as a management tool to manage credit risk, whereby each customer is rated at a risk level. This risk level may be revised and updated from time to time. Data and ratings of customers throughout the system are controlled and centrally managed at the Head Office. This is the basis for granting credit and providing services to customers as well as making allowance for credit risks in accordance with regulations.

49. INTEREST RATE RISK

The Bank's operations are subject to the risk of interest rate fluctuations to the extent that interest-earning assets and interest-bearing liabilities mature at different times or in differing amounts. Some assets have indefinite maturities or interest rate sensitivities and are not readily matched with specific liabilities.

The following table shows the Bank's assets and liabilities categorised by the contractual re-pricing period or maturity date and the interest rates as at the end of annual accounting period.

The interest rate re-pricing term is the remaining period from the end of annual accounting period to the most recent interest repricing period of the assets and liabilities items.

The following assumptions and conditions have been adopted in the analysis of repricing period of interest rate of the assets and liabilities of the Bank:

- Cash, gold and gemstones; long-term investments and other assets (including fixed assets and some other assets) are classified as non-interest bearings;
- Deposits at the State Banks are classified as demand deposits, therefore interest re-pricing term is classified as up to one (1) month;
- The interest rate re-pricing term of investment securities is determined as follows:
  - Items with fixed interest rates for the duration of the contract: The interest rate re-pricing term is based on the maturity from the end of annual accounting period;
  - Items with floating interest rates: The interest rate re-pricing term is based on the latest interest rate re-pricing date from the end of annual accounting period;
- The interest rate re-pricing term of deposits and loans to credit institutions, loans to customers and credit extension entrustment; due from the Government and the State Bank of Vietnam; deposits and loans from credit institutions; customers' deposits; other borrowed and entrusted funds and valuable papers issued are determined as follows:
  - Items with fixed interest rates for the duration of the contract: The interest rate re-pricing term is based on the maturity from the end of annual accounting period;
  - Items with floating interest rates: The interest rate re-pricing term is based on the latest interest rate re-pricing date from the end of annual accounting period;
- Other liabilities are classified as not affected by interest rate re-pricing.

50. CURRENCY RISK

Currency risk is the risk that the value of a financial instrument fluctuates due to changes in foreign exchange rates. The Bank was incorporated and operates in Vietnam, with VND as its reporting currency. The major currency in which the Bank transacts is VND. The Bank's loans and advances to customers were mainly denominated in VND and USD. Some of the Bank's other assets are in currencies other than VND and USD. The Bank's management has set limits on positions by currency based on the internal risk assessment system of the Bank and regulations of the SBV. Positions are monitored on a daily basis and hedging strategies used to ensure positions are maintained within established limits.

Classification of assets and liabilities in foreign currencies translated into VND as at 31 December 2024 is as follows:

51. LIQUIDITY RISK

Liquidity risk includes the risk of being unable to fund assets at appropriate maturities and rates and the risk of being unable to liquidate an asset at a reasonable price and in an appropriate time frame.

Liquidity risk is measured through the use of indicators related to cash flows, capital mobilisation capability, and asset liquidity of the Bank. The Bank also has a designated unit to obtain updated domestic and foreign economic information, which directly affects the Bank's trading book and business strategies, as well as on forecasting movements of market factors such as the foreign exchange rate, interest rate and gold price for timely risk warnings. The Bank also establishes and applies a limit system and decision authority at each level based on results of risk measurement for each category.

The following table provides an analysis of the assets and liabilities of the Bank into relevant maturity groupings based on the remaining period from the reporting date to repayment date. In practice, the actual maturity of assets or liabilities may differ from contractual terms based on the addenda to the contracts which may exist.

The following assumptions and conditions have been adopted in the analysis of the maturity period of the Bank's assets and liabilities:

- Balances at the State Banks are classified as demand deposits, including compulsory reserve deposits. The balance of compulsory reserve deposits depends on the composition and terms of the Bank's deposits from customers;
- The maturity term of deposits with and loans to credit institutions and loans to customers is determined based on the maturity date of the specified contract. Actual maturities may vary as loan agreements are extend. In addition, customer loans are recorded at principal value excluding risk allowances;
- Trading securities are classified into items with terms within one (1) month;
- The maturity investment securities being debt securities is determined based on the maturity date of each type of securities;
- The maturity term of available-for-sale investments which are equity securities and equity investments are classified into items with terms from one (1) year to five (5) years since these investments have no maturity date;
- Deposits and borrowings from other credit institutions and deposits from customers are determined based on the nature of these items or the maturity date on the contract. Vostro accounts and demand deposits are transacted as required by customers and are therefore classified as demand deposits. The maturity term for borrowings and term deposits is determined based on the maturity date in accordance with the contract. In fact, these accounts may be renewed and therefore maintained for longer than the original maturity date;
- The maturity of the valuable paper issued is determined based on the maturity date of each valuable paper; and
- The maturity term of fixed assets is determined as having term from one (1) to five (5) years.

Military Commercial Joint Stock Bank

STATEMENT OF THE BOARD OF MANAGEMENT

The Board of Management of Military Commercial Joint Stock Bank ("the Bank") is pleased to present this report and the consolidated financial statements of the Bank and its subsidiaries for the year ended 31 December 2025.

THE BOARD OF MANAGEMENT'S RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Board of Management of the Bank is responsible for the consolidated financial statements for the year ended 31 December 2025 which give a true and fair view of the consolidated financial position of the Bank and its subsidiaries, their consolidated statement of income and their consolidated cash flows for the year. In preparing these consolidated financial statements, the Board of Management is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed by the Bank and its subsidiaries, subject to any material departures disclosed and explained in the consolidated financial statements; and
- prepare the consolidated financial statements on the going concern basis unless it is inappropriate to presume that the Bank and its subsidiaries will continue their business.

The Board of Management of the Bank is responsible for ensuring that proper accounting records are kept which disclose, with reasonable accuracy at any time, the consolidated financial position of the Bank and its subsidiaries and ensuring that the accounting records comply with the applied accounting system. The Board of Management is also responsible for safeguarding the assets of the Bank and its subsidiaries and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Board of Management confirmed that it has complied with the above requirements in preparing the accompanying consolidated financial statements for the year ended 31 December 2025.

STATEMENT OF THE BOARD OF MANAGEMENT

The Board of Management of the Bank does hereby state that, in its opinion, the accompanying consolidated financial statements give a true and fair view of the consolidated financial position as at 31 December 2025, their consolidated results of operations and their consolidated cash flows for the year then ended in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for credit institutions stipulated by the State Bank of Vietnam and the relevant statutory requirements applicable to financial reporting.

INDEPENDENT AUDITOR'S REPORT

To the Shareholders
Military Commercial Joint Stock Bank

We have audited the accompanying consolidated financial statements of Military Commercial Joint Stock Bank ("the Bank") and its subsidiaries (collectively "MB"), which comprise the consolidated statement of financial position as at 31 December 2025, the consolidated statement of income and the consolidated statement of cash flows for the year then ended and the explanatory notes thereto which were authorised for issue by the Bank's Board of Management on 7 March 2026, as set out on pages from 6 to 99.

The Board of Management's Responsibility

The Board of Management of the Bank is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for credit institutions stipulated by the State Bank of Vietnam and the relevant statutory requirements applicable to consolidated financial statements, and for such internal control as the Board of Management determines is necessary to enable the preparation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Bank's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Bank's Board of Management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

KPMG Limited, a Vietnamese one member limited liability company and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee. All rights reserved.

Auditor's Opinion

In our opinion, the consolidated financial statements give a true and fair view, in all material respects, of the consolidated financial position of Military Commercial Joint Stock Bank and its subsidiaries as at 31 December 2025, and of their consolidated results of operations and consolidated cash flows for the year then ended in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for credit institutions stipulated by the State Bank of Vietnam and the relevant statutory requirements applicable to financial reporting.

1. GENERAL INFORMATION (continued)

***Subsidiaries** (continued)*

(*) Under the joint venture agreement between the Bank and Shinsei Bank (Japan), the Bank reserves the right to appoint the Chairman of the board of members, General Director and several key management personnel of Mcredit.

(**) On 17 October 2024, the SBV announced the decision for the mandatory transfer of Ocean Commercial One Member Limited Liability Bank to the Bank according to the mandatory transfer plan approved by the SBV on 17 October 2024. After the mandatory transfer, Ocean Commercial One Member Limited Liability Bank continues to operate as a single-member limited liability bank wholly owned by the Bank.

Ocean Commercial One Member Limited Liability Bank was renamed as Modern Bank of Vietnam Limited ("MBV") in accordance with Decision No. 741/QD-TTGSNH1 dated 5 December 2024 of the Banking Supervision and Inspection Agency under the State Bank of Vietnam.

As of 31 December 2025 and 31 December 2024, the bank has not yet contributed capital to MBV.

According to the Point c, Clause 1, Article 185 of the Law on Credit Institutions No. 32/2024/QH15 dated 18 January 2024, the Bank is not required to consolidate the financial statements of the mandatorily transferred commercial bank.

2. ACCOUNTING PERIOD AND ACCOUNTING CURRENCY

2.1 Annual accounting period

MB's annual accounting period starts on 1 January and ends on 31 December.

2.2 Accounting currency

The currency used in the preparation of the consolidated financial statements of MB is Vietnam dong ("VND"). For the purpose of preparing the consolidated financial statements, all amounts are rounded to the nearest million and presented in VND million except for otherwise presented. The presentation makes no impact on readers' view of the consolidated financial position, consolidated statement of income and consolidated cash flows of the Bank and its subsidiaries.

3. APPLIED ACCOUNTING STANDARDS AND ACCOUNTING SYSTEM

3.1 Statement of compliance

The Board of Management of the Bank confirms that the accompanying consolidated financial statements have been prepared in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for credit institutions stipulated by the State Bank of Vietnam and the relevant statutory requirements applicable to financial reporting.

3. APPLIED ACCOUNTING STANDARDS AND SYSTEM (continued)

3.2 *Basis of preparation the financial statements*

The consolidated financial statements of the Bank are prepared in accordance with the Vietnamese Accounting System for credit institutions required under Decision No. 479/2004/QD-NHNN issued on 29 April 2004 ("Decision 479") promulgating the chart of accounts of credit institutions; Decision No. 16/2007/QD-NHNN dated 18 April 2007 on the financial reporting regime applicable to credit institutions ("Decision 16"); Circular No. 10/2014/TT-NHNN dated 20 March 2014 ("Circular 10") on amending and supplementing a number of accounts in the accounting system of credit institutions issued under Decision 479; Circular No. 49/2014/TT-NHNN dated 31 December 2014 ("Circular 49") on amending and supplementing a number of provisions of the financial reporting regime for credit institutions issued with Decision 16 and the accounting system of credit institutions issued with Decision 479; Circular No. 22/2017/TT-NHNN dated 29 December 2017 ("Circular 22") amending and supplementing a number of articles of the accounting chart of accounts for credit institutions issued together with Decision 479 and the financial reporting regime for credit institutions issued together with Decision 16 and Circular No 27/2021/TT-NHNN issued on 31 December 2021 amending chart of accounts of credit institutions enclosed with Decision 479 and regulations on Financial statements of credit institutions enclosed with Decision 16 and other Vietnamese Accounting Standards issued by the Ministry of Finance as per:

- Decision No. 149/2001/QD-BTC dated 31 December 2001 on the Issuance and Promulgation of Four Vietnamese Accounting Standards (Series No.1);
- Decision No. 165/2002/QD-BTC dated 31 December 2002 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series No.2);
- Decision No. 234/2003/QD-BTC dated 30 December 2003 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series No.3);
- Decision No. 12/2005/QD-BTC dated 15 February 2005 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series No. 4); and
- Decision No. 100/2005/QD-BTC dated 28 December 2005 on the Issuance and Promulgation of Four Vietnamese Accounting Standards (Series No.5).

Accordingly, the accompanying consolidated financial statements and their utilisation are not designed for those who are not informed about Vietnam's accounting principles, procedures and practices and furthermore are not intended to present the consolidated financial position, the consolidated results of operations and the consolidated cash flows in accordance with accounting principles and practices generally accepted in countries other than Vietnam.

3.3 *Assumptions and uses of estimates*

The preparation of the consolidated financial statements requires the Board of Management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities. These estimates and assumptions also affect the income, expenses and the resultant provisions. Such estimates are necessarily based on assumptions involving varying degrees of subjectivity and uncertainty and actual results may differ resulting in future changes in such items.

3. APPLIED ACCOUNTING STANDARDS AND SYSTEM (continued)

3.4 *Basis of consolidation*

As presented in Note 1, according to Point c, Clause 1, Article 185 of the Law on Credit Institutions No. 32/2024/QH15 dated 18 January 2024, the Bank is not required to consolidate the financial statements of the commercial bank which is mandatorily transferred to the bank. Accordingly, the Bank does not consolidate the financial statements of Modern Bank of Viet Nam Limited, which is the commercial bank mandatorily transferred to the bank since 17 October 2024.

Except for MBV, the subsidiaries are fully consolidated from the date of acquisition, which is the date on which the Bank obtains control of the subsidiaries and continues to be consolidated until the date on which the Bank ceases to control the subsidiary.

Non-controlling interest represents the portion of net results of operations and net assets not owned by the Bank and are presented separately in the consolidated statement of income and within equity in the consolidated statement of financial position.

The financial statements of the Bank and its subsidiaries are prepared for the same annual reporting period, using consistent accounting policies.

All intra-company balances, income and expenses and unrealised gains or losses resulting from intra-company transactions are eliminated in full.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies adopted by MB in the preparation of the consolidated financial statements.

4.1 *Cash and cash equivalents*

Cash and cash equivalents comprise cash, current accounts at the SBV, Government bills and other short-term valuable papers which can be rediscounted with the SBV, securities, current deposits with and loans to other credit institutions with an original maturity of three months or less from the transaction date, which are highly liquid and readily convertible into certain amounts of cash and that are subject to an insignificant risk of change in value and are held for the purpose of meeting short-term payment obligations rather than for investment or other purposes.

4.2 *Deposits with and loans to other credit institutions ("CIs")*

Deposits with and loans to other credit institutions include current deposits and deposits at other CIs with original terms of not exceeding three months.

Loans to other credit institutions are loans with original terms to maturity of no more than twelve months.

Deposits with other CIs, except for current deposits and loans to other CIs are stated at the amount of outstanding principal less any specific allowance for credit risks

Current deposits with other CIs are stated at cost.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.2 Deposits with and loans to other credit institutions ("CIs") (continued)

The classification of credit risk for term deposits with and loans to other CIs credit institutions and the corresponding allowance for credit losses is made in accordance with Circular No. 31/2024/TT-NHNN dated 30 June 2024 ("Circular 31") issued by the SBV regulating the classification of assets in the operations of commercial banks, non-bank credit institutions, and foreign bank branches and Decree No. 86/2024/ND-CP dated 11 July 2024 ("Decree 86") issued by the Government regulating the level of provisioning, the method of setting up risk provisions, the use of provisions to handle risks in the operations of CIs, foreign bank branches and cases where CIs allocate receivable interest to be withdrawn. Accordingly, MB classifies debts and makes specific allowance for term deposits with and loans to other CIs in accordance with Circular 31 and Decree 86 as described in *Note 4.4*.

According to Decree 86, MB is not required to make general allowance for term deposits and loans to other CIs.

4.3 Loans to customers

Loans to customers are presented at the principal amounts outstanding less any allowance for loan to customer.

Short-term loans have maturity of less than one year from disbursement date. Medium-term loans have maturity from one to five years from disbursement date. Long-term loans have maturity of more than five years from disbursement date.

Loan classification and allowance for credit losses are made in accordance with method as presented in *Note 4.4*.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.4 *Classification, level and method for making allowance for credit losses*

Debts classification

The classification of debts for deposits at other credit institutions (except for demand deposits and deposits at the Bank for Social Policies in accordance with the regulations of the State Bank of Vietnam on the maintenance of deposit balances at the Bank for Social Policies by state-owned credit institutions); purchase or entrusted purchase of corporate bonds (including bonds issued by other credit institutions) that have not been listed on the stock market or have not been registered for trading on the Upcom trading system (collectively referred to as "unlisted bonds"), excluding the purchase of unlisted bonds with trust capital at the risk of the trustee; loans to customers and loans to other credit institutions (including loans, financial leases, discounts, rediscounts of negotiable instruments and other valuable papers, factorings, credit extension in the form of credit card issuance and payments in lieu of off-balance sheet commitments); credit entrustment; debts that have been sold but the proceeds therefrom have not yet been fully collected; repurchased debts; purchase and resale of government bonds in the stock market; purchase of certificates of deposit issued by other credit institutions; debts arising from issuing deferred letter of credit with a clause agreeing that the beneficiary is paid immediately or before the due date of the letter of credit and reimbursing letters of credit as agreed with customers using the resources of the reimbursing bank from the date the reimbursing bank made payments to the beneficiary; negotiating payments for letters of credit and outright purchases without recourse of documents, except when a credit institution or foreign bank branch purchases the documents on a non-recourse basis under a letter of credit issued by that same credit institution or foreign bank branch (collectively referred to as "debts") shall be carried out according to the method based on quantitative factors as prescribed in Article 10 of Circular 31.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.4 Classification, level and method for making allowance for credit losses (continued)

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.4 Classification, level and method for making allowance for credit losses (continued)

For payments on behalf arising from off-balance sheet commitments, MB shall classify loans based on overdue days starting from the date when MB committed obligation:

- Group 3 – Sub-standards: overdue for less than 30 days;
- Group 4 – Doubtful: overdue from 30 days to less than 90 days;
- Group 5 – Loss: overdue for 90 days or more.

Bad debts are those belonging to Groups 3, 4, 5.

The classification of off-balance-sheet credit commitments is performed solely for the purpose of managing and monitoring the quality of credit activities. MB does not make any allowance for off-balance-sheet commitments, unless MB is required to fulfil a payment obligation under such commitments. In this case, the payment made on behalf of the borrower is classified and provided for allowance according to the accounting policies described above.

If a customer has more than one debt with MB and any of the outstanding debts is classified into a higher risk group, the entire remaining debts of such customer should be classified into the corresponding higher risk group.

MB have been required to use the updated information from Credit Information Centre ("CIC") on the loan group of customers at the time of classification to adjust the classification results of their debts and off-balance sheet items. If a customer's debts with MB is classified into a lower risk group than the loan group under the list of customers provided by CIC, MB shall adjust the loan classification according to list of customers provided by CIC.

When MB participates in a syndicated loan as a participant, it classifies loans (including syndicated loans) of the customer into the higher of the risk group assessed by other participating banks and by MB.

At the same time, MB also applied the following regulations:

- Regulation on restructuring and retention of the latest debt classification for the loans that meet the requirements of Decree No. 55/2015/ND-CP ("Decree 55") dated 9 June 2015 on credit policy for agricultural and rural development; Circular No. 10/2015/TT-NHNN issued by the State Bank of Vietnam on 22 July 2015 ("Circular 10") guiding the implementation of some provisions of Decree 55; Circular No. 25/2018/TT-NHNN issued by the State Bank of Vietnam on 24 October 2018, amending and supplementing some articles of Circular 10, guiding the implementation of some articles of Decree 55; Decree 116/2018/ND-CP issued by the Government on 7 September 2018, amending and supplementing some articles of Decree 55; and Decree 156/2025/ND-CP issued by the Government on 16 June 2025, amending and supplementing some articles of Decree 55;

- Circular No. 53/2024/TT-NHNN ("Circular 53") issued by the State Bank of Vietnam on 4 December 2024 regulating the restructuring of debt repayment terms for customers facing difficulties due to the impact and damage of Typhoon No. 3, flooding and landslides after Typhoon No. 3; and

- Decision No. 1510/QD-TTg ("Decision 1510") of Prime Minister issued on 4 December 2024 on the classification of assets, allowance rate, the method of making risk allowance and the use of allowance to handle risks for debts of customers facing difficulties due to the impact, damage of Typhoon No. 3.

4.4 Classification, level and method for making allowance for credit losses (continued)

Specific allowance for credit losses

According to the provisions of Decree 86, specific allowance for credit losses for debts at the end of each month are appropriated based on the allowance rates corresponding to the results of debt classification and principal balance minus the discounted value of the collateral at the last day of the month. Specific allowance as at 31 December 2025 is made based on the principal balance less discounted value of collaterals multiplied by allowance rates which are determined based on the loan classification results as at 31 December 2025.

The maximum value and deduction rate of collateral are determined in accordance with the provisions of Decree 86, whereby each type of collateral has a certain maximum deduction rate for the purpose of calculating risk allowance.

The collateral to be deducted when calculating the specific allowance must meet the following conditions:

a) MB has the right to dispose of the collateral according to the guarantee contract and the provisions of law when the customer fails to fulfill its obligations as agreed;

b) The expected disposal period for the collateral shall not exceed 01 (one) year for non-real estate collateral and not exceed 02 (two) years for real estate collateral, from the date MB has the right to dispose of the collateral;

c) The collateral must comply with the provisions of the law on secured transactions and other relevant laws; and

d) If the collateral does not meet the conditions specified in points a, b, and c above, the deductible value of that collateral shall be considered to be 0 (zero).

Additional specific allowance

MB made additional specific allowance for debts that are restructured, exempt or reduction of interest rate and maintaining debt classification group regulated by Circular 53 and Decision 1510 as follow:

- Determine specific allowance shall be made for all outstanding debt of borrowers according to the results of debt classification in Decree 86: (A)
- Determine specific allowance for outstanding debts of the debt group which are kept unchanged according to Circular 53 and Decision 1510 for the remaining debts of borrowers according to Circular 31 and Decree 86: (B)
- Additional specific allowance (C) = (A) – (B) shall be determined as follows:
  - By 31/12/2024: At least 35% of the additional allowance.
  - By 31/12/2025: At least 70% of the additional allowance.
  - By 31/12/2026: 100% of the additional allowance.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.4 *Classification, level and method for making allowance for credit losses* (continued)

General allowance

According to Decree 86, a general allowance is appropriated at the rate of 0.75% of the total balance at the last day of each month of debts minus deposits, loans, receivables, and other credit extension activities between credit institutions, or foreign bank branches and loans classified as loss. General allowance as at 31 December 2025 is calculated based on the results of debt classification and principal balance as at 31 December 2025.

Bad debts written off

Allowance are recognised as an expense on the consolidated statement of income and used to write-off bad debts. MB establishes a Risk Handling Committee to deal with bad debts if they are classified in Group 5 or if the borrower is a dissolved, bankrupt organisation or individual who is dead or missing.

Debts written-off against allowance are recorded as in an appropriate off-balance sheet account for monitoring and collection purpose. The amount recovered from the debts previously written-off are recognised in the consolidated statement of income upon receipt.

4.5 *Debt purchase and sale*

Debt purchase and sale of the Bank are recorded in accordance with Circular 09/2015/TT-NHNN dated 17 July 2015 ("Circular 09") issued by the SBV regulating debt purchase and sale by credit institutions, foreign bank branches and Circular 18/2022/TT-NHNN dated 26 December 2022 ("Circular 18") amending, supplementing to articles of Circular 09 accordingly:

- Book value of a purchased and sold debt includes the book value of debt principal and interest and other debt-related financial obligations (if any) by the time of debt purchase and sale for the debt accounted on the balance sheet or off the balance sheet; or the book value being monitored at the time of being removed off the balance sheet or at the time of debt purchase and sale for the debt being removed off the consolidated statement of financial position.
- Debt purchase and sale price means a sum of money to be paid by a debt purchaser to a debt seller under a debt purchase and sale contract.

Debt purchase

Debts purchased are recorded on the balance sheet of the Bank at the price stated in debt purchase contract and monitoring principles and interest of purchased debts off balance sheet. In case the Bank receives interest on a debt including interest before the Bank purchased the debt, the Bank shall allocate the interest amount according to the following principles: (i) reduce the value of the purchased debt by the interest amount before the purchase; (ii) record as income the interest amount of the period after the Bank purchases the debt.

For the purchased debts, the Bank classifies the paid amount into a group with a risk level not lower than previous debt group that was classified before purchase. Debt classification and allowance for debt purchases are made similarly to loans to other customers according to method described in *Note 4.4*.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.5 Debt purchase and sale (continued)

Debt sale

Revenue and expense from selling debts are recorded in accordance with Circular 09 and Circular 18. According to Circular 09, the difference between the debt purchase, sale price and debt seller's book value is handled as follows:

- For the debts being recorded on the balance sheet:
  - If the debt sale price is higher than the book value of the debt, the difference shall be accounted as income of MB during the year.
  - If the debt sale price is lower than the value of the debt, the difference shall be offset with the compensation paid by an individual or an organisation (in case such individual or organisation is identified to have caused the damage and must pay compensation under regulations), the insurance sum paid by the insurer and the risk provision already set aside from expenses; the deficit shall be accounted as a business cost of MB.
- For the debt accounted off the balance sheet or debt left off the statement of financial position, the debt sale proceeds shall be accounted as other income of MB.

For debts sold but not yet fully collected, the Bank classifies the outstanding amount from the debt buyer into the debt category at the most recent debt classification before the sale. Based on the term, maturity, and other information in the credit agreement signed with the customer whose debt was sold, the Bank further classifies the outstanding amount from the debt sale to calculate the provision using the method presented in *Note 4.4*.

4.6 Securities held for trading

Securities held for trading include debt securities acquired and held for the purpose of trading in the short term or where there is evidence of trading those securities for short-term profit.

Securities held for trading are recognised on the date the Bank becomes a counterparty to the purchase agreement for these securities (accounting based on the transaction date).

Debt securities held for trading are recognised at cost less allowance for diminution in value of trading securities (if any). Allowance for trading securities includes the allowance for credit risk of unlisted bonds and the allowance for securities devaluation. The allowance for devaluation of securities is recognised in the consolidated statement of income under the item "Net gain/(loss) from trading securities". Allowance for credit losses of corporate bonds, which are not listed on the stock market or not registered on the unlisted public company market, is made in accordance with method described in *Note 4.4*.

Allowance for diminution of securities is made where there is evidence that the market price of securities held for trading is lower than the book value:

- For listed debt securities held for trading, the market price is determined by the most recent trading price on the Stock Exchange within 10 days prior to the end of the fiscal year. If there are no transactions within 10 days prior to the end of the fiscal year, the Bank shall not make a provision for these securities.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.6 Securities held for trading (continued)

- For listed equity securities held for trading, the market price is determined based on the closing price on the most recent trading day up to the end of the financial year.

- For unlisted equity securities held for trading but registered for trading on the securities trading system for unlisted public companies ("UPCOM"), the market price is determined as the average reference price over the 30 most recent consecutive trading days prior to the end of the financial year.

- For unlisted equity securities held for trading but freely traded on the over-the-counter ("OTC") market, the market price is determined based on the average of the transaction prices on the financial year-end date, as provided by three securities companies with charter capital of more than VND 300 billion.

- For other unlisted securities held for trading, in cases the market price does not exist or cannot be reliably determined, these securities are recognised at cost.

Allowance for credit risk of securities held for trading that are unlisted corporate bonds and allowance for diminution of securities held for trading mentioned above shall be reversed when the recoverable amount of the securities increases after the initial recognition of the provision. The reversal allowance shall only be made to the extent that the book value of these securities held for trading does not exceed the book value that would have been recorded assuming no allowance is recognised.

Income from interest on debt securities held for trading during the holding period is recognised in the consolidated income statement when received. Securities held for trading are derecognised when the rights to receive cash flows from these securities are terminated or MB transfers substantially all the risks and rewards of ownership of these securities.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.7 Investment securities

4.7.1 Available-for-sale investment securities

Available-for-sale investment securities include debt securities that MB holds for an indefinite period and may sell at any time. Available-for-sale investment securities are recognised on the date when MB becomes a party to the contractual terms of these securities.

Debt securities are initially recognised at cost which include purchase cost plus directly attributable costs such as brokerage fee, transaction fees or information fees... (if any). Accrued interest (for debt securities with interest payment in arrears) and deferred interest (for debt securities with interest payment in advance) is recognised in separate accounts. Discount/premium, which is the difference between the cost and the amount being the par value plus (+) accrued interest (if any) or minus (-) deferred interest (if any) is also recognised in a separate account.

Subsequently, these securities are recorded at amortised cost affected by premium/discount amortisation less allowance for investment securities including allowance for credit risks and allowance for diminution in the value of securities. The interest received in arrears is recorded as follows: Cumulative interest incurred before the purchase date is recorded as a decrease in the accrued interest; cumulative interest incurred after the purchase date is recognised as income based on the accumulated method. The interest received in advance is amortised into the securities investment interest income on a straight-line basis over the terms of the securities investment.

Available-for-sale listed debt securities are recorded at cost less allowance for diminution in the value of securities by referring to the latest transaction at the Stock Exchange within 10 days of the end of the year. In case there are no transactions within 10 days from the end of the year, the Bank shall not make allowances for these securities. The bank made no allowance for Government bonds, Government guaranteed bonds, municipal bonds classified as investment securities. Allowance is recognised in the "*Net gain/(loss) from investment securities and long-term investments*" in the consolidated statement of income.

Available-for-sale unlisted corporate securities are recorded at cost less allowance for credit losses according to the method described in *Note 4.4*.

4.7.2 Held-to-maturity investment securities

Held-to-maturity investment securities are debt securities purchased by MB for the investment purpose of earning interest and MB has the capability and intention to hold these investments until maturity. Held-to-maturity investment securities have determined value and maturity dates. In case the securities are sold before the maturity date, the remaining portfolio of these securities will be reclassified to appropriate account before the time of sale.

Held-to-maturity investment securities are recorded and measured similarly to debt securities available-for-sale as presented at *Note 4.7.1*.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.8 Other long-term investments

Other long-term investments are investments in other entities in which MB holds less than or equal to 11% of voting rights and securities of these entities are not listed on the stock market. These investments are initially recorded at cost at the transaction date. Subsequent to initial recognition, these investments are stated at cost less allowance for diminution in value.

An allowance is made for diminution in investment value if the investee has suffered a loss which may cause MB to lose its invested capital, unless there is evidence that the value of the investment has not been diminished. Allowance for diminution in value is determined as the total actual contributed capital of parties to the investee less (-) the actual owner's equity multiplied (x) by MB's ownership percentage in the investee at the end of annual accounting period.

The allowance is reversed if the recoverable amount of the investments increases after making allowance. It is reversed to the extent that the carrying value of these investments does not exceed the carrying value of the investment assuming that no allowance has been recorded.

Increase or decrease in allowance for long-term investments is recognised in *"Net gain/ (loss) from investment securities and long-term investments"* in the consolidated statement of income.

4.9 Fixed assets

Fixed assets are stated at cost less accumulated depreciation or amortisation.

The cost of a fixed asset comprises its purchase price plus any directly attributable cost of bringing the asset to working condition for its intended use.

Costs related to additions, improvements and renewals are capitalized if these expenses increase future economic benefits expected from using fixed asset higher than original standard of performance while expenditures for maintenance and repairs are charged to the consolidated statement of income.

When assets are sold or liquidated, their cost and accumulated depreciation/amortisation are deducted from the consolidated statement of financial position and any gains or losses resulting from their disposal (being the difference between net proceeds from the sale of assets and the remaining value of assets) are recorded in the consolidated statement of income.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.10 Depreciation and amortisation

Depreciation of tangible fixed asset and amortisation of intangible fixed assets is calculated on a straight-line basis over the estimated useful lives of these assets as follows:

Buildings and construction	6 - 50 years
Machines and equipment	3 - 8 years
Transportation vehicles and transmission devices	6 - 10 years
Other tangible fixed assets	3 - 8 years
Land use rights (*)	30 - 50 years
Computer software	3 - 8 years
Other intangible fixed assets	3 years

(*) Indefinite land use rights with fees or by transfer indefinite land use rights are not amortised. Land use rights with definite terms or leased land use rights are amortised over their terms.

4.11 Investment properties

Investment properties for rental

Investment properties for rental are stated at cost less accumulated depreciation. The initial cost of investment properties for rental includes purchase price, cost of land use rights, and directly attributable costs to bring the asset to the necessary condition for proper functioning. Expenses incurred after investment properties for rental have been put into operation such as repairs and maintenance, are recognised in the consolidated statement of income in the year in which they are incurred. In cases where it can be clearly demonstrated that these expenses increase the expected future economic benefits from the investment property in excess of its standard performance according to initial assessment. Initially, these costs are capitalised as an incremental cost of investment properties for rental.

Depreciation is calculated on a straight-line basis over the estimated useful lives of the investment property. The estimated useful life of land use rights and assets on land is 39 years and assets attached to land is 20 years.

4.12 Other assets

4.12.1 Receivables classified as credit risk-bearing assets

Receivables classified as credit risk-bearing assets are recognised at cost less allowance for credit losses and classified and provided for allowance of these receivables in accordance with method described in *Note 4.4*.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.12 Receivables (continued)

4.12.2 Other receivables

Other receivables not classified as credit risk-bearing assets of MB are initially recorded at cost deducting allowance for doubtful debt.

Allowance for receivables is determined based on the overdue status of debts or expected loss of current debts in case the debts are not due for payment yet but the corporate debtors have bankrupted or have fled from business address, or of individual debtors who are being prosecuted, detained or tried by law enforcement bodies or have deceased or the debt has been requested to be tried but cannot be executed due to the debtor having fled his place of residence; the debt has been sued for debt collection but the case has been suspended. Allowance expense incurred is recorded in "Allowance expenses" in the consolidated statement of income.

Allowance for overdue debts is made as follows:

Overdue status	*Allowance rates*
From over six months to under one year	30%
From one to under two years	50%
From two to under three years	70%
From three years and above	100%

Allowance for other assets that are not due for payment is determined by the Bank after considering the recoverability of such debts.

4.13 Prepaid expenses

Prepaid expenses are reported as short-term or long-term prepaid expenses on the consolidated statement of financial position and amortised over the period for which the amount is paid or the period in which economic benefit is generated in relation to these expenses.

4.14 Goodwill

Goodwill acquired in a business combination is initially recognised at cost being the excess of the cost of the business combination over the Bank's interest in the fair value of the acquiree's identifiable assets, liabilities and contingent liabilities. After initial recognition, goodwill is recognised at cost less any accumulated amortisation. Goodwill is amortised on a straight-line basis over a period of ten (10) years.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.15 Re-purchase and reverse-repurchase contracts

Securities and valuable papers sold under agreements to repurchase at a specific date in the future (repos) are still recognised in the consolidated financial statements. The corresponding cash received from these agreements is recognised in the consolidated statement of financial position as a borrowing and the difference between the sale price and repurchase price is amortised in the consolidated statement of income over the term of the agreement using the straight-line method based on the interest rate stipulated in the contract.

Conversely, securities purchased under agreements to resell at a specific date in the future are not recognised in the consolidated financial statements. The corresponding cash paid under these agreements is recognised as a loan in the consolidated statement of financial position and the difference between the purchase price and resale price is amortised in the consolidated statement of income over the term of the agreement using the straight-line method based on the interest rate stipulated in the contract.

4.16 Leased assets

The determination of whether an arrangement is, or contains a lease is based on the substance of the arrangement at the inception date and requires an assessment of whether the fulfilment of the arrangement depends on the use of a specific asset and the arrangement conveys a right to use the asset.

All other lease arrangements are classified as operating leases

Where MB is the lessee

Rentals under operating leases are charged to the consolidated statement of income on a straight-line basis over the lease term.

Where MB is the lessor

Assets subject to operating leases are included as MB's fixed assets in the consolidated statement of financial position. Initial direct costs incurred in negotiating an operating lease are recognised in the consolidated statement of income as incurred.

Lease income is recognised in the consolidated statement of income on a straight-line basis over the lease term.

4.17 Amounts due to the Government and the State Bank of Vietnam

Amounts due to the Government and the State Bank of Vietnam are recognised at cost.

4.18 Deposits from other credit institutions, deposits from customers, other borrowed and entrusted funds and valuable papers issued

Deposits from other credit institutions, deposits from customers, other borrowed and entrusted funds and valuable papers issued are published and disclosed at the principal amounts outstanding at the end of the annual accounting period. Expenses for bond issuance are initially deducted from principal amount of the bonds. MB then allocates these expenses into "*Interest and similar expenses*" on a straight-line basis according to the terms of value papers.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.19 Foreign currency transactions

According to accounting policy of MB, all transactions are recorded in original currencies. Monetary assets and liabilities denominated in foreign currencies are translated into VND using exchange rates ruling at the consolidated statement of financial position date *(Note 55)*. Income and expenses arising in foreign currencies during the year are converted into VND at rates ruling at the transaction dates. Foreign exchange differences arising from the translation of monetary assets and liabilities are recognised in the consolidated statement of income.

Overseas operation

The assets and liabilities of the overseas subsidiaries accounted in other reporting currencies are translated into VND at the exchange rates prevailing at the end of annual accounting period for consolidation. Revenue and expenses of overseas subsidiaries are converted into VND at the average exchange rate of the annual accounting period.

Foreign exchange differences arising from the conversion to consolidate foreign subsidiaries mentioned above are recorded in the item "Foreign exchange differences" under equity in the consolidated financial statements.

4.20 Payables and accruals

Payables and accruals are recognised for amounts to be paid in the future for goods and services received, whether or not billed to MB.

4.21 Technical insurance reserves

Technical insurance reserves at Military Insurance Corporation and MB Ageas Life Insurance Limited Company, two subsidiaries, are computed according to the methods provided by Circular No. 67/2023/TT-BTC dated 2 November 2023 ("Circular 67") issued by the Ministry of Finance providing implementation guidance for certain articles of Law on Insurance Business, Decree No. 46/2023/ND-CP dated 1 July 2023 ("Decree 46") issued by the Government of Vietnam on the promulgation of implementation guidance for certain articles of Law on Insurance Business. Details of the method are presented as follows:

(i) Unearned premium reserves

For insurance and re-insurance policies with a term of less than or equal to one (1) year and still valid at the end of annual accounting period, unearned premium reserve is calculated as a percentage as follows:

- For cargo insurance, unearned premium reserve is made at 25% of the retained premium during the financial year.
- For other general insurance lines, unearned premium reserve is made at 50% of the retained premium during the financial year.
- For life insurance, the unearned premium reserve is calculated according to the 1/8 or 1/24 method as specified in the technical basis of each product that has been approved.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.21 *Technical insurance reserves* (continued)

(i) Unearned premium reserves (continued)

For general insurance and re-insurance line with a term more than one (1) year, unearned premium reserve is made by formular as follows:

$$\text{Unearned premium reserve} = \frac{\text{Premium * Number of remained insurance days under insurance, re-insurance contract}}{\text{Total number of insurance days under insurance, re-insurance contract}}$$

(ii) Mathematical reserve

For life insurance contracts: Mathematical reserve for life insurance is the difference between the present value of total insurance payables in the future and the present value of the net insurance premiums with Zillmer adjustment for insurance premiums receivables in the future. Mathematical reserve is calculated for insurance policies that have valid period of more than one (1) year with specific actuarial formulae and factors for each type of products as registered and approved by the Ministry of Finance. The maximum valuation interest rate is linked to the average interest rate of government bonds as per formula specified in the Circular 67.

For health insurance and reinsurance contracts with a term more than 1 year, excluding contracts that only cover death or total and permanent disability: The mathematical reserve is made by formular as follows:

$$\text{Mathematical reserve} = \frac{\text{Premium * Number of remained insurance days under insurance, re-insurance contract}}{\text{Total number of insurance days under insurance, re-insurance contract}}$$

Except for contracts providing coverage solely for death or total and permanent disability, in all other cases MB ensures that the amount of provision recorded is not less than the amount determined using the one-eighth (1/8) method.

(iii) Claims reserve

Claims reserve includes reserve for claims outstanding at the end of the period but not yet resolved and for claims incurred but not notified at the end of annual accounting period.

- Outstanding claim reserve is established based on the estimated claim payments for each claim for which the insurer is liable, which is either notified to the insurer or requested for payment but is still unresolved at the end of year;

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.21 Technical insurance reserves (continued)

(iii) Claims reserve (continued)

- Reserve for incurred but not reported claims for which the insurer is liable ("IBNR"): For non-life insurance contracts and life insurance contracts with a term of one year or less, the Bank made provision at the rate of 3% of the insurance premium. For supplementary accident insurance products, supplementary critical illness products, and supplementary hospitalisation and surgical expense products issued by MB Ageas Life Insurance Company Limited, a subsidiary, the provision for claims incurred is determined based on the higher of: 3% of the annualised premiums of in-force insurance contracts at the provision date, and 3% of premium revenue for the period for such products.

(iv) Catastrophe reserve

Catastrophe reserve is made annually until it reaches 100% of the retained premiums of the annual accounting period and based on the rate of retained premiums according to Circular 67.

On 28 December 2005, the Ministry of Finance issued Decision No. 100/2005/QD-BTC governing the publication of four new accounting standards, including Vietnamese Accounting Standard ("VAS") 19 – Insurance Contract. Accordingly, from January 2006, the provision of catastrophe reserve is no longer required since it represents "possible claims under contracts that do not exist at the reporting date". However, since the Ministry of Finance has not issued detailed guidance for the implementation of VAS 19 and according to Circular 46, MB continues to make catastrophe reserve on the consolidated financial statements for the year ended 31 December 2025.

(v) Equalisation reserve

The reserve is set aside one percent (1%) of its profit before tax annually for reserve until this reserve reaches five percent (5%) of collected premiums in the fiscal year of life insurance contracts.

4.22 Bonus and welfare fund

The bonus and welfare fund is not prescribed by law and may be fully distributed, it is mainly used to make payments to the Bank's officers and employees. The bonus and welfare fund is appropriated from profit after tax according to the resolution of the General Meeting of Shareholders and is recognised as a liability of the Bank. The appropriation rate is decided at the Bank's General Annual Meeting of Shareholders.

4.23 Science and Technology Development Fund

The Science and Technology Development Fund is used for the Bank's investment in research and development of science and technology. The Science and Technology Development Fund is appropriated annually upon approval by the Bank's Board of Directors, up to a maximum of 10% of taxable corporate income for the tax period. The Science and Technology Development Fund is recorded under the "Operating Expenses" item on the consolidated statement of income and under the "Other liabilities" in the consolidated statement of financial position.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.24 Capital and reserves

4.24.1 Ordinary shares

Ordinary shares are classified as equity. Incremental costs directly attributable to the issuance of ordinary shares are recognised as a deduction from share premium in equity.

4.24.2 Share premium

On receipt of capital from shareholders, the difference between the issuance price and the par value of the shares is recorded as share premium in equity.

4.24.3 Other capital

Other capital in the consolidated statement of financial position is recognised when a subsidiary increases its capital using share premium, development investment funds, or undistributed after tax profits arising after the acquisition date. When consolidating the financial statements, MB eliminates the Parent Bank's investment in the subsidiary and recognises the value of the additional capital of the subsidiary attributable to the Parent Bank under the "Other capital" item of owners' equity in the consolidated statement of financial position.

4.24.4 Reserves

MB makes appropriation to reserves in accordance with current regulations and Resolution of the General Meeting of Shareholders or corresponding owners.

(i) Bank's reserves

Reserve to supplement charter capital

According to the Law on Credit Institutions No. 32/2024/QH15 passed by the National Assembly on 18 January 2024 ("Law on Credit Institutions") and Decree No. 135/2025/ND-CP issued by the Government on 12 June 2025, on the financial regime for credit institutions, foreign bank branches and financial supervision, evaluation of the efficiency of state capital investment in credit institutions with 100% state-owned charter capital and credit institutions with state capital ("Decree 135") applicable from 1 August 2025, and Decree 93/2017/NĐ-CP dated 7 August 2017 ("Decree 93") issued by the Government applicable to periods before 1 August 2025, the Bank is required to appropriate the following funds before distributing profits:

	Annual appropriation rate	Maximum Amount
Reserve to supplement charter capital	10% of profit after tax	100% charter capital
Financial reserve	10% of profit after tax	Not specified

The financial reserve is used to cover remaining losses incurred during the normal course of business after the Company is compensated by the organisations and individuals who make the loss by insurance companies, and by utilisation of allowances provided; and for other purposes in accordance with the laws.

These reserves are non-distributable and recognised as part of equity.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.24 Capital and reserves (continued)

4.24.4 Reserves (continued)

Other reserves

Other reserves under equity are appropriated from profit after tax. The appropriation from profit after tax to these reserves should be approved by the Bank's General Meeting of Shareholders.

(ii) Subsidiaries' Reserves

Military Bank Asset Management Company Limited ("MB AMC")

MB AMC makes appropriations to mandatory reserve funds and the bonus and welfare fund in accordance with decisions issued by the Parent Bank.

MB Securities Joint Stock Company ("MBS") and MB Capital Management Joint Stock Company ("MB Cap")

The reserves of MBS and MB Capital are appropriated in accordance with the Resolutions of the General Meeting of Shareholders.

MB Shinsei Consumer Credit Finance Limited Liability Company ("Mcredit")

Military Insurance Corporation ("MIC") and MB Ageas Life Insurance Company Limited ("MBLife")

MIC and MBLife are required to appropriate mandatory reserve funds from profit after tax at a rate of 5% until the balance reaches 10% of charter capital.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.25 Recognition of income and expenses

4.25.1 Interest income and expenses

Interest income and expenses are recognised in the consolidated statement of income on an accrual basis. The recognition of accrued interest income of a loan is suspended when such debt is classified in groups 2 to 5 in compliance with Circular 31 or restructured under Decree 55 and Circular 53 will not be recognised in the consolidated statement of income. Interest receivable from such debts is monitored off-balance sheet and recognised in the consolidated statement of income upon receipt.

4.25.2 Fee and commission income

Income from insurance business

Insurance premium revenue is recognised in the consolidated statement of income when:

- The insurance contract has been entered in to by the insurance company and the insured and the insured has paid the full insurance premium;
- There is evidence that the insurance contract has been entered into and the insured has fully paid insurance premium;
- The insurance contract has been concluded and the insurance company has an agreement with policyholder regarding the premium payment term , the insurance company records the insurance premium revenue that the payable by policy holder according to the agreement in the insurance contract when the insurance coverage period begins; and
- The insurance contract has been entered into and there is an agreement with the insured for insurance premium being paid on instalment basis, the insurance company recognises the premiums revenue corresponding to the period or periods in which premiums revenue have been incurred and does not recognise premiums revenue that are not due to be paid by the insurance buyer as agreed in the insurance contract.

Banking services fees

Banking services fees are recognised when the services are performed.

Securities brokerage revenue

Revenue from securities brokerage services is recognised when the securities transaction is completed.

Income from other services

When the result of the contract is definitely determined, income is recognised based on the stage of completion of work or service. If the result of the contract is not determined, income is only recognised to the extent of recoverable amount of expenses incurred.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.25 Recognition of income and expenses (continued)

4.25.3 Income from securities trading business

Income from securities trading is recognised based on differences between selling price and the cost of the securities.

Cash dividend is recognised in the consolidated statement of income when the right to receive cash dividends of MB is established.

Dividend received in the form of common shares, bonus shares and stock options for current shareholders, shares distributed from undistributed profits are not recognised as an income of MB but only update the quantity of stock.

4.25.4 Recognition of uncollectible receivables

According to the Law on Credit Institutions No. 32/2024/QH15 dated 18 January 2024 issued by the National Assembly, receivables from uncollectible accrued income at the due date are recorded as reduction in revenue if the income has been accrued in the same annual accounting period or recorded as expense if the income has been accrued in different annual accounting periods and monitored in off-balance sheet. Upon actual receipt of these receivables, MB would recognise to income on the consolidated statement of income.

4.25.5 Fee and commission expense

Claim expenses for insurance activities

Claim expense for insurances activities including claim and others expense for insurances activities. Claim expenses of gross premium is recognised on the basis of incurrence when insurance companies accept claims. Other expenses for insurance activities are recognised when incurred.

Commission expenses for insurance business

Military Insurance Corporation and MB Ageas Life Insurances Company Limited, two subsidiaries, calculated commission at certain percentage of direct premiums for specific line of insurance as stipulated in Circular 67. Commission expenses are allocated and recognised in the consolidated statement of income for direct premiums earned during the year. The commission which is not allocated would be recognised as prepaid expense and being allocated in subsequent years.

Loan origination costs from loans to customers in the finance company

Loan origination costs including commissions to agencies, third parties, and sale personnel are amortised into the consolidated statement of income using the straight-line method over the average duration of the loan types ranging from 10 - 31 months.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.26 Corporate income taxes

Current income tax

Current income tax assets and liabilities for the current and prior years are measured at the amount expected to be recovered from (or paid to) the tax authorities - using the tax rates and tax laws applied and enacted at the end of annual accounting period.

Current income tax is charged or credited to the consolidated statement of income except when it relates to items recognised directly to equity, in this case the current income tax is also recognised in equity.

Current income tax assets and liabilities are offset when there is a legally enforceable right for MB to offset current tax assets against current tax liabilities and when MB intends to settle its current tax assets and liabilities on a net basis.

Deferred tax

Deferred tax is provided on temporary differences at the end of the annual accounting period between the tax base of assets and liabilities and their carrying amount for the financial reporting purposes.

Deferred tax payables are recognised for temporary taxable differences.

Deferred tax assets are recognised for all deductible temporary differences, deductible amounts carried over subsequent periods of taxable losses and unused tax credits when it is probable that there will be sufficient taxable profit to use deductible temporary differences, taxable losses and tax credits. Previously unrecognised deferred tax assets are reviewed at the end of the annual accounting period and are recognised only to the extent that it is probable that future taxable profits will be available against which these unrecognised deferred tax assets can be utilised. Deferred tax assets and deferred tax liabilities are determined on the basic of expected tax rate applied when assets are recovered, or liabilities are settled and on the basis of tax rate and tax laws which effective at the end of the accounting period.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.27 Off-balance-sheet commitments

At any given time, the Bank has outstanding credit commitments. These commitments are in the form of approved loans and overdrafts. The Bank also provides financial guarantees and letters of credit to third parties to secure customers' contractual performance to third parties. Many of these commitments and contingent liabilities will mature without resulting in any, or full, advance being made. Therefore, these commitments and contingent liabilities do not necessarily represent the expected future cash flows.

Letters of credit ("L/C") which contains a provision that allows the beneficiary to receive payment immediately or at a date before the L/C due date ("UPAS LC")

When the reimbursing bank makes payment to the beneficiary, the Bank must accept the debt with the reimbursing bank, and at the same time, the customer must accept the debt with the Bank for the amount the reimbursing bank has paid to the beneficiary as committed in the letter of credit. Upon receipt of the notice of the reimbursing bank that payment has been made to the beneficiary, the Bank shall recognise the amount accepted as a debt with the reimbursing bank as a borrowing from other credit institutions, and at the same time, recognise the amount the customer has accepted as debt as a loan to customers.

The Bank also provides financial guarantees and letters of credit to third parties to guarantee the performance of its customers' contracts. Many commitments and contingent liabilities will mature without any advance being made in whole or in part. Therefore, these commitments and contingent liabilities do not necessarily reflect the expected future cash flows.

4.28 Derivatives

MB enters in currency forward contracts and swap contracts to facilitate customers to transfer, modify or mitigate foreign exchange risk or other market risks, and also for the business purpose of MB.

Currency forward contracts

The forwards contracts are recorded at nominal value at the transaction date and are revalued at effective exchange rate at the end of annual accounting period and are stated at net value in the consolidated statement of financial position. Differences upon revaluation at the end of the annual accounting period are recognised in the "Foreign exchange differences" account in the consolidated statement of financial position each month and are transferred to the consolidated statement of income at the end of the annual accounting period or upon maturity if the contract maturity date is before the end of the annual accounting period. Differences between the amounts in VND of the foreign currency amounts which are committed to buy/sell at forward rate and spot rate are recognised in the consolidated statement of income on a straight-line basis over the term of the contracts.

Currency swap contracts

The currency swap contracts are commitments to buy or sell the same amount of foreign currency (only two currencies are used in the transaction) with the same partner, in which there is a transaction with the spot payment term and a transaction with a payment period determined in the future and the rate of the two transactions is determined at the time of determination of spot transaction. Premiums/discounts arising from the difference of the spot exchange rate at the effective date of the contracts and the forward exchange rate will be recognised immediately on the effective date of the contracts as an asset if they are positive or as a liability if they are negative in the consolidated statement of financial position. This difference is amortised to the consolidated statement of income on a straight-line basis over the term of the swap contracts.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.28 Derivatives (continued)

Interest rate swap contracts

Interest rate swap contracts are commitments to settle the interest amount based on floating or fixed interest rates over the notional principal amounts. The contract value in basic interest rate swap contracts of the same currency is recognised as off-balance sheet items. Income earned and expenses incurred on nominal principal amounts are recognised in the consolidated statement of income on an accrual basis.

4.29 Earnings per share

MB presents basic earnings per share for ordinary shares. Basic earnings per share amounts are calculated by dividing net profit or loss after tax for the year attributable to ordinary shareholders of MB (after adjusting for the bonus and welfare fund) by the weighted average number of ordinary shares outstanding during the annual accounting period.

If the shares issued during the year only change the number of shares without changing the total equity, MB will adjust the weighted average number of ordinary shares currently circulated to the previous annual accounting period presented on the consolidated financial statements, resulting in a corresponding adjustment of the opening balance of the basic earnings per shares.

4.30 Employee benefits

4.30.1 Post-employment benefits

Post-employment benefits are paid to retired employees of MB in Vietnam by the Social Insurance Agency of the Ministry of Labor, Invalids and Social Affairs. MB is required to contribute to these post-employment benefits by paying social insurance and occupational accident and disease insurance at the rate of 17% and 0.5% respectively of the employee's basic monthly salary. Other than that, MB has no further obligation. Social insurance and occupational accident and disease insurance are recognised in the consolidated statement of income when incurred.

4.30.2 Voluntary resignation benefits

MB has the obligation, under Article 46 of the Vietnam Labour Law 45/2019/QH14 comes into force from 1 January 2021, to pay allowance arising from voluntary resignation of employees who fully meet the requirements of relevant laws and regulations, equal to one-half month's salary for each year of employment up to 31 December 2008 plus salary allowances (if any). The average monthly salary used in this calculation is the average monthly salary of the latest six-month period up to the resignation date. Allowance arising from voluntary resignation is recognised in the consolidated statement of income when payments are made.

4.30.3 Unemployment insurance

According to Circular No. 28/2015/TT-BLDTBXH providing guidance for Decree No. 28/2015/ND-CP dated 12 March 2015 (as prescribed by the Government) on unemployment insurance, from 1 January 2009, MB is required to contribute to the unemployment insurance at the rate of 1% of salary and wage fund of unemployment insurance joiners and deduct 1% of monthly salary and wage of each employee to contribute to the unemployment insurance. Unemployment insurance is recognised in the consolidated statement of income when incurred.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.31 Segment reporting

A segment is a separate unit of MB which participates in providing relevant products and services (segments categorized by business sectors) or providing products and services in a certain economic environment (segments categorized by geographical regions). Each segment bears unique risks and gains different benefits. The fundamental segment report form of MB is based on business sectors.

4.32 Related parties

Parties are considered to be related parties of MB if a party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions, or when MB and other parties are under common control or under common significant influence. Related parties may be individuals or corporate entities and include close family members of any individual considered to be a related party.

4.33 Offsetting

Financial assets and financial liabilities are offsets and the net amount is reported in the consolidated statement of financial position if, and only if, there is a currently enforceable legal right to offset financial assets against financial liabilities, and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

4.34 Nil balances

Items or balances that are not describe in these consolidated financial statements required by regulations on financial statement of credit institutions enclosed with Decision No. 16/2007/QD-NHNN dated 18 April 2007 of Governor of State Bank of Vietnam indicate nil balances.

4.35 Comparative information

Comparative information in these consolidated financial statements is presented in the form of corresponding data. Under this method, the comparative information for the prior year is presented as an integral part of the current year financial statements and should be considered in relation to the figures and disclosures of the current year. Accordingly, the comparative information included in the consolidated financial statements is not intended to present the consolidated financial position, consolidated financial operations and consolidated cash flows of MB in the previous year.

36. CURRENT CORPORATE INCOME TAX EXPENSE

The Bank and its subsidiaries in Viet Nam has the obligation to pay corporate income tax ("CIT") at the rate of 20% of taxable profits according to Circular No. 78/2014/TT-BTC which became effective from 2 August 2014 guiding the implementation of the Government's Decree No. 218/2013/ND-CP dated 26 December 2013, detailing and guiding the implementation of the law on CIT.

For MB Bank (Cambodia) PLC., a subsidiary of the Bank, MB shall calculate and determine its CIT in compliance with Cambodian regulations on corporate income tax. According to the Tax Act dated 8 January 1997, the corporate income tax of MB Cambodia is determined to be the greater of the minimum tax payable determined by 1% of total revenue (including value added tax) or 20% of profits earned.

For the Bank's branch in Laos, the Bank calculates and determines its CIT in accordance with the income tax regulations in Laos. According to the Tax Ordinance No. 67 dated 18 June 2019 issued by the Lao P,D,R Parliament and became effective from 17 February 2020, CIT of the branch is defined as 20% of the profit of the branch.

MB's tax reports are subject to examination by the tax authorities. Because the application of tax laws and regulations to many types of transactions and in each country is susceptible to varying interpretations, amount reported in the consolidated financial statements could be changed at a later date upon final determination of the local tax authorities.

Current corporate income tax payables are determined based on taxable income of the year. Taxable income differs from the one reported in the consolidated statement of income since taxable income excludes incomes which are taxable or expenses which are deducted in prior periods due to the differences between MB's accounting policies and the tax regulations. It also excludes tax exempted income and non-deductible expenses. The current corporate income tax payable of MB is calculated based on the statutory tax rates applicable at the end of the accounting period.

36. CURRENT CORPORATE INCOME TAX EXPENSE (continued)

Current income tax expense during the year is estimated as follows:

	2025 VND million	*2024 VND million*

41. CONTINGENT LIABILITIES AND COMMITMENTS

In the course of its business, the Bank performs financial instruments related to items other than the consolidated statement of financial position. These financial instruments mainly include guarantees of guarantees and letters of credit. These instruments also create credit risks for the Bank in addition to the credit risks recognised in the balance sheet.

Credit risk of off-balance sheet financial instruments is defined as the ability to introduce credit risk to the Bank when one of the parties related to such financial instrument fails to perform the terms of the contract.

Financial guarantees are conditional commitments that the Bank grants to customers to transact with a third party in the activities of loan guarantee, payment guarantee, contract performance guarantee and bid guarantee. The credit risk associated with the granting of guarantees is essentially the same as that of lending to customers.

A sight commercial letter of credit transaction is a type of transaction in which the Bank provides financing to its customers, usually the buyer/importer of goods and the beneficiary being the seller/exporter. Credit risk in a sight letter of credit is usually low since imported goods are used as collateral for this type of transaction.

A deferred letter of credit transaction will incur a risk when the contract has been performed but the customer does not pay the beneficiary. Deferred payment letters of credit that are not paid by the customer are recognised by the Bank as a mandatory loan and the corresponding liability represents the Bank's financial obligation to pay the beneficiary and fulfill its obligations in guaranteeing for customers.

MB often require customers to deposit to secure credit-related financial instruments when necessary. The margin value ranges from 0% to 100% of the committed value granted, depending on the customer's reliability level as assessed by the Bank.

Contingent liabilities and commitments are detailed as follows:

	31/12/2025 VND million	*31/12/2024 VND million*

47. FINANCIAL RISK MANAGEMENT POLICIES

This section provides information of MB's exposure to risks and describes the policies, the methods used by the Management to control risks. The most important types of financial risks to which MB is exposed are credit risk, liquidity risk and market risk.

MB's orientation is to become a diversified financial group. Therefore, the use of financial instruments, including funding from customers (with deposit products and valuable papers issued) and investments in high quality financial assets has become the key activities to help MB gain necessary interest rate gaps. From the risk management perspective, MB is required to maintain the structure of assets, liabilities and equity (including balance sheet items and off-balance sheet items) for the purpose of ensuring safety and mitigating risks in banking activities. In addition, MB has invested in securities or granted credit facilities to other banks. The risks related to currency exchange and interest rates have been managed through applying of position limits to restrict over-concentration and simultaneously participating in activities with balancing impact to minimise risks. MB holds many assets that are high-quality financial instruments to hedge risks and ensure liquidity. In addition, MB has been also involved in many derivatives transactions related to financial instruments such as currency forward commitments, currency swap commitments, and cross currency swap commitments for the purpose of managing interest rate risk and currency risk.

In the process of credit risk management, MB has adopted the Credit Handbook which provides in details the lending policies and procedures as well as implementation guidance on standardisation of MB's credit activities. Liquidity risk is limited by holding appropriate amounts of cash and cash equivalents as demand deposits ("Nostro"), term deposits at the SBV and other credit institutions and valuable papers. The safety ratios with risk factors taken into account are also used to manage liquidity risk. MB has regularly assessed interest rate gaps, compared to the gaps of domestic markets and international markets to make timely adjustments. In addition, the application of internal risk management processes has become more efficient owing to the deployment of Centralised Capital Management System and Centralised Payment System in which all capital and payment transactions of MB are executed by the Head Office. Such centralisation has also helped MB to monitor capital movements more effectively and reduce any possible errors and unnecessarily complicated procedures.

48. CREDIT RISK

Credit risk is the inherent risk in the business activities of banks, Credit risk is the possibility of loss due to customers' failure to perform or inability to perform their obligations as committed.

MB has maintained an appropriate risk management policy to ensure these following basic principles:

- Establish appropriate risk management environment;
- Operate under healthy credit granting procedure;
- Maintain appropriate credit managing, measuring, supervising procedure; and
- Ensure adequate control on credit risk.

MB conducts credit review through multiple levels to ensure that a credit is independently reviewed; at the same time, the loan approval is done on the basis of the credit limit assigned to each competent level. In addition, the Bank's credit approval model has the participation of the Credit Council to ensure that credit approval activities are concentrated with the highest quality.

MB is using an internal credit rating system approved by the SBV as a management tool to manage credit risk, whereby each customer is rated at a risk level. This risk level may be revised and updated from time to time. Data and ratings of customers throughout the system are controlled and centrally managed at the Head Office. This is the basis for granting credit and providing services to customers as well as making allowance for credit risks in accordance with regulations.

49. INTEREST RATE RISK

MB's operations are subject to the risk of interest rate fluctuations to the extent that interest-earning assets and interest-bearing liabilities mature at different times or in differing amounts. Some assets have indefinite maturities or interest rate sensitivities and are not readily matched with specific liabilities.

The following table shows MB's assets and liabilities categorised by the contractual re-pricing period or maturity date and the effective interest rates as at the year-end.

The interest rate re-pricing term is the remaining period from the year-end to the most recent interest repricing period of the assets and liabilities items. The following assumptions and conditions have been adopted in the analysis of repricing period of interest rate of the assets and liabilities of MB:

- Cash, gold, and gemstones; long-term investments and other assets (including fixed assets and some other assets) are classified as non-interest bearings;
- Deposits at the State Banks are classified as demand deposits, therefore interest re-pricing term is classified as up to one month;
- The interest rate re-pricing term of investment securities and trading securities is determined as follows:
  - Items with fixed interest rates for the duration of the contract: The interest rate re-pricing term is based on the actual maturity from the end of annual accounting period;
  - Items with floating interest rates: The effective interest rate re-pricing term is based on the latest interest rate re-pricing date from the year-end;
  - Investment securities and trading securities which are equity securities are classified as not affected by interest rate re-pricing.
- The interest rate re-pricing term of deposits and loans to credit institutions, loans to customers granted and trusted for granting; due from the Government and the State Bank; deposits and loans from credit institutions; customers' deposits; other borrowed and entrusted funds that credit institutions bear risks and valuable papers issued are determined as follows:
  - Items with fixed interest rates for the duration of the contract: The interest rate re-pricing term is based on the maturity from the year-end;
  - Items with floating interest rates: The interest rate re-pricing term is based on the latest interest rate re-pricing date from the year-end;
- Other liabilities are classified as not affected by interest rate re-pricing.

50. CURRENCY RISK

Currency risk is the risk that the value of a financial instrument fluctuates due to changes in foreign exchange rates. MB was incorporated and operates in Vietnam, with VND as its reporting currency. The major currency in which MB transacts is VND. MB's loans and advances to customers were mainly denominated in VND and USD. Some of MB's other assets are in currencies other than VND and USD. MB's management has set limits on positions by currency based on the internal risk assessment system of MB and regulations of the SBV. Positions are monitored on a daily basis and hedging strategies used to ensure positions are maintained within established limits.

Classification of assets and liabilities in foreign currencies translated into VND as at 31 December 2025 were as follows:

51. LIQUIDITY RISK

Liquidity risk arises in MB's funding activities in general and in the management of positions. It includes both the risk of being unable to fund assets at appropriate maturities and rates and the risk of being unable to liquidate an asset at a reasonable price and in an appropriate time frame.

Liquidity risk is measured through the use of indicators related to cash flows, capital mobilisation capability, and asset liquidity of MB. MB also has a designated unit to obtain updated domestic and foreign economic information, which directly affects MB's Trading book and business strategies, as well as on forecasting movements of market factors such as the foreign exchange rate, interest rate and gold price for timely risk warnings. MB also establishes and applies a limit system and decision authority at each level based on results of risk measurement for each category.

The following table provides an analysis of the assets and liabilities of MB into relevant maturity groupings based on the remaining period from the year-end date to repayment date. In practice, the actual maturity of assets or liabilities may differ from contractual terms based on the addenda to the contracts which may exist.

The following assumptions and conditions have been adopted in the analysis of the maturity period of MB's assets and liabilities:

- Balances at the State Banks are classified as demand deposits, including compulsory reserve deposits. The balance of compulsory reserve deposits depends on the composition and terms of MB's deposits from customers;
- The maturity date of Deposits with and loans to credit institutions and loans to customers is determined based on the maturity date of the specified contract.
- Trading securities which are equity securities are classified into securities with term up to one month;
- The maturity term of deposits and loans to credit institutions and customers is determined based on the maturity date of the specified contract. Actual maturity dates may vary due to extended loan agreements. In addition, loans to customers are presented in original value excluding provisions;
- The maturity term of capital contribution, investment securities which are equity securities is determined as having term from (1) year to (5) years since these investments have no maturity date;
- Deposits, borrowings from other credit institutions and deposits from customers are determined based on the nature of these items or the maturity date on the contract. Demand deposit amount is determined based on the results of an analysis of customer behavior patterns. The maturity term for borrowings and term deposits is determined based on the maturity date in accordance with the contract;
- The maturity of the valuable paper issued is determined based on the maturity date of each valuable paper; and
- The maturity term of fixed assets is determined as having term from one (1) to five (5) years.
